Legal Separation Outcome of
Sensations; Others Gain
Freedom.

After more than a year's wrangling in the courts over one phase or another of marital differences, Dr. J. Emmett Clark, formerly of Alameda, and his wife, Ivy Lee Clark, were legally separated through a decree handed down by the Superior Court late yesterday. Mrs. Clark, who was plaintiff in the suit for divorce, being granted preliminary papers on the grounds of desertion.

Mrs. Clark accused her husband of kidnapping one of their children. Next she had him arrested for failure to provide and in retaliation Clark filed suit for divorce, alleging cruelty. The decree was denied by Superior Judge Ogden. After several months Mrs. Clark brought suit with successful outcome.

HONEYMOONING IN THEATER.
Relating that her honeymoon was spent partially in a 10-cent show while her husband sat beside her asleep, Mrs. Ida Kuhn has filed divorce proceedings against John Kuhn.

OTHERS FREED.
Alexander J. Borland was accustomed to leave his wife alone at night in an old house, according to Annie Borland, who was granted an interlocutory decree.

Mary E. Formosa was granted a similar decree from Axel Formosa after she had testified that he had struck her on the mouth and sent a doctor away from the house when she was sick.

Complaints were filed by Marie Edwards from William A. Edwards, habitually intemperate, and by Mary Dupont against Manuel Dupont, desertion.

Cecil Morton obtained an interlocutory decree from Ernest Morton on the grounds of desertion.

MAMMOTH PARADE WILL SHOW CITY

Oakland-Antioch Guests to See
Industries in moving
Panorama.

A mammoth industrial parade, before the boosters of the neighboring country, will mark the arrival, Saturday afternoon, of the Moesters' Excursion and the formal opening of the Oakland, Antioch & Eastern Railway. Every factory and big business enterprise in Oakland, the suburbs and the city departments and other features of interests will be shown in the great pageant. The 1000 guests of the city will be met at the Oakland-Antioch station by Mayor Mott and the city officials.

The parade will form at Twentieth and Broadway and march past the reviewing stand. The committee met this morning in the office of W. W. Keith, chairman, in general charge of the affair. Fred E. Reed, vice-chairman, in charge of the parade. P. H. Hannan, in charge of the parade, assisted by two aides, William Hobbs, Mason, T. J. Donovan, Harry S. Anderson and William J. Bacon, Jr., will direct the parade. The parade will be decorated with many flags and banners.

PARADE FEATURES.
The parade will be under the direction of Captain F. J. Faneuf, will be one of the features of the big parade. The parade will be decorated with many flags and banners.

dition to the warning given by his illness, why the financier's death was not seriously disturbing.

His career, they said, was rounded out. He had accomplished virtually all he started out to achieve. For some time the Morgan firm had refrained from large new enterprises. All that human foresight could dictate had been done in the last year and a half to safeguard the business and financial world against calamity when Morgan's last hour came.

GARY HONORS DEAD.
Among the numerous appreciations of Morgan was one by Elbert H. Gary, chairman of the United States Steel Corporation, the greatest of all the industries organized by Morgan.

"None of Mr. Morgan's business associates will mourn his death more than those connected with the United States Steel Corporation," said Gary. "His presence, his counsel, his efforts always were influential in the endeavor to establish and maintain in the fullest extent in the United States reputation for fair and honorable treatment toward all who might be affected by the decisions and conduct of the corporation. His death will leave a void that never can be filled."

as to finance, for Mr. Morgan was very charitable. He did not believe the market will be affected. To the moment of his death Mr. Morgan was the head of the firm. He was a great financier, and it remains for the future to say whether his successor will fill his place. It is impossible to say how the business will be reorganized or who will succeed Mr. Morgan.

Former President Pays Deep Tribute

NEW YORK, April 1.—Former President Taft paid a tribute to the memory of J. P. Morgan last night at the home of his brother, Henry W. Taft, shortly after his arrival from Augusta, Ga. "I knew Mr. Morgan personally," said Taft, "but our relations never were intimate. However, he always impressed me as a man of remarkable administrative force and executive ability. Without doubt he was the greatest financier that America ever has produced and certainly was one of the impressive world figures of his time."

England Laments Passing of Morgan

LONDON, April 1.—The death of J. P. Morgan generally is lamented in England where he spent so much of his time. London morning papers print extended obituary notices in which the career of a financier, a collector of works of art and a philanthropist is eulogized.

"An English friend," believed to be Lord Northcliffe, writing to the Daily Mail says:

"The passing of Mr. Morgan is a loss to Great Britain as well as to the United States. Perhaps because of his English association, perhaps by reason of his great admiration for English institutions and the marriages contracted by his kinfolk with English people, Mr. Morgan was a strong factor in making good feeling between the English people and Americans."

INTEGRITY NOT QUESTIONED.
The Daily Telegraph says:

"America has lost a great financier whose integrity was never questioned, whose methods on the whole have been an undeniable service to the country."

"GREATEST FINANCIER."
BERLIN, April 1.—The Berlin morning papers devote columns to Mr. Morgan's death and write, in deciding him to have been the world's greatest financier.

"No living man has held such financial power as Mr. Morgan," says the Tagblatt, which ascribes the trust development in the United States chiefly to him.

"His enterprise overshadowed the deeds and successes of all the other financial giants of the United States," says the National Zeitung.

The Morgen Post says that he abolished the distinction between big and small American business.

PARIS MOURNS.
PARIS, April 1.—Appreciations of J. P. Morgan are published in most of the Paris morning papers, which call attention to his high position in international finance, his enterprise and culture.

The Figaro says:

"Mr. Morgan's death will cause sincere sorrow to France. The French museums possess many proofs of his generosity, and the government intended to confer upon him the Legion of Honor on his next visit to Europe."

APRIL FOOLING IS SENATE DIVERSION

"Investigation" of Progressive
Row in South is Proposed.

SACRAMENTO, April 1.—The dignified Progressive senate of the state of California had its share of April foolery this morning by reason of a resolution introduced by Senator J. B. Sanford (Democrat) of Ukiah, calling for an investigation of the Progressive committee into a factional quarrel among the Progressives of Los Angeles. For an hour the upper house was convulsed with laughter, until on motion of Senator Thompson "further consideration" was postponed.

Sanford's resolution was a masterpiece of satire at the expense of the majority party in the legislature. It set forth that "Whereas, there comes from the chemically pure and politically perfect city of Los Angeles, a group of men of discord and dissension, indicating a death struggle for political prestige and party leadership between E. Tobias Earl on the one side and Meyer Lissner, Marshal Stimmons and Russ Avery on the other, there should be an investigation, with a view of learning the merits of the controversy."

Continuing, the resolution provides for the appointment of a committee consisting of senators Zerk and Heenan of San Francisco and Cartwright of Fresno, to investigate the facts and report back to the senate.

BRANDED "TOMFOOLERY."
When it had been read Senator Thompson moved that Sanford be given the right to withdraw his resolution. The right was accorded by vote and vote. But Senator Sanford refused to avail himself of the opportunity. He requested that it be set as a special order for tomorrow morning. At this point Senator Boynton declared it was "tomfoolery" and a waste of time and on motion of Senator Thompson further consideration was postponed indefinitely.

Three judgeship bills, providing for four additional superior court judges for San Francisco and one each for San Diego and Kern counties, were approved by the senate this morning with only one dissenting vote on each measure. Senator Shanahan of Shasta county voted in the negative, after explaining that he was opposed to the general policy of creating more judges.

The bill providing for the additional court in Kern county previously had passed the assembly and now goes to the governor for his signature. The other two measures must first be approved by the lower house.

and in this way all who are idle may be put to work, if necessary by force. Word was received from Major General Wood at Cincinnati by the general relief committee that the situation would be handled the same as last year.

The sheriff has requested Governor Dummer to appeal to the state for money to buy three large boats from the Mississippi around in front of Cairo to be used in an emergency. Refugees continued to leave the city all night and crowds are still waiting at depots to get out.

RAPIDLY RISING.
The water is rising much more rapidly than yesterday and the demand for more workmen became urgent. The surface in the Ohio now stands about one foot higher than the highest street level, which is the main thoroughfare of the town and impedes the flow of traffic. In case of a break the flood waters would not rise to more than one or two feet in the buildings on that street, but all of the town back of it becomes gradually lower and most of the houses would be completely submerged in case of a break.

SITUATION DESPERATE.
Already the situation is desperate. A large subway which was the only passageway from Cairo into the drainage district has been blocked to save this city. The place was boarded up and dozens of carloads of sandbags placed to hold back the water.

Most of the houses and places of business in the drainage district have been abandoned and it is the prediction that this section is doomed. It is held that this break cannot result in Cairo proper being flooded. Within five days, each squad accompanied by a policeman has refused to work.

PASTOR IN CHARGE.
Rev. M. H. Love of the Methodist church, who has had charge of relief work in former years, is in charge of the relief committee. He will have about twenty assistants and a temporary hospital, which has been arranged on a large wharfboat in the river.

About one-half of the people have left the city already. The fugitives were chiefly women and children and it is believed that should an avalanche of water sweep over the city now it would result in little loss of life.

Rulers of World Extend Sympathy

WASHINGTON, April 1.—Messages continued to come today to President Wilson from foreign rulers expressing sympathy for sufferers in the flood. King George of England cabled:

"I am greatly distressed at the news of the disastrous floods and the grievous loss of life caused by them. I desire to express to your excellency my deepest sympathy with yourself and the people of the United States in your sorrow."

The President replied:

"Allow me, in the name of the people and government of the United States, to express my deep appreciation of your majesty's kind message of condolence."

King Emanuele of Italy cabled:

"On hearing the news of the floods that have devastated prosperous regions and made so many victims, I beg you to believe in the sentiment of sincere and deep sympathy which will join in your country's mourning."

WILSON RESPONDS.
President Wilson responded:

"Your majesty's touching words of sympathy in the terrible loss of life and property which has befallen many American homes are deeply appreciated by the government and people of the United States."

From Sultan Ahmed Kadir of Persia came the following:

"Deeply shocked by the terrible catastrophe that has befallen the United States by reason of flood, I hasten to offer your excellency and the American nation the expression of my most earnest and sincere condolence."

President Wilson replied:

"I thank you, your majesty, for your kind words of sympathy in the direful calamity which has befallen so many American families."

Food Supply Low in Stricken Dayton

DAYTON, O., April 1.—The food supply in Dayton has been over estimated, according to reports received today from relief stations scattered over the city. The situation is becoming more desperate. The relief committee wired Secretary of War Garrison, that the food situation was much worse than had been anticipated and that the committee would look to the national government for supplies.

It is estimated that between 30,000 and 40,000 refugees are being fed daily. Provisions must be received in the stricken city before tomorrow or suffering will ensue, officials say.

Cash is a great demand. Checks for relief come in in the hands of the relief committee, but the cash is not available.

Three bodies were recovered today, bringing the total of the flood up to 129 according to an estimate by Coroner J. W. McKamy. The lowlands south of Dayton are being searched and the coroner is making an effort to get a complete list of the dead from undertakers.

Entire Ohio Town Is Under Water

NEW RICHMOND, Ohio, April 1.—The entire town of New Richmond is under water. The people have taken up quarters on the roofs surrounding the town. Provisions have been received from Batavia and there is no suffering. No one has been reported dead or missing. Fifty houses have been washed from their foundations at Moscow, near New Richmond.

GIVE COUNTRY PUBLICITY WORTH WHILE, IS PLEA

Arguments Presented Favoring Promotion
Campaign by Oakland

EDITOR TRIBUNE: The amendment to Assembly Bill 478, as introduced by Assemblyman Clark, has for its purpose the greater number through direct advertising because increase of population brings with it a corresponding increase in the development of the state and of its land values. Assemblyman Clark's bill is for the purpose of inducing investment where it should properly go on the tax payer whose land value is increased through the advertising investment.

The bill provides that the Board of Supervisors shall have, among other powers, that:

"To levy a special tax upon the taxable property of their respective counties for the purpose of inducing investment on the work of inducing immigration, or for the purpose of exhibiting, manufacturing or other resources of the county, provided however, that such tax shall not exceed two cents on the one hundred dollars assessed valuation for any one year."

BENEFIT TO COUNTY.
This proposed amendment will raise a fund of \$50,000 a year in Alameda county. Its purpose is to induce immigration, and property owners will realize the advantages of such an expenditure at the present moment, with the fair so close at hand. Alameda county at present can raise only \$2000 for this purpose. It is desired not to increase the amount in Alameda county, but to make it also possible for all the rest of the counties to commence to pour in publicity money.

And if Alameda county supervisors do not levy this tax, two cents on the \$100, still they are interested in having it made possible for the great counties of Sacramento and Fresno and Solano and Merced and all the other counties to increase their land values. The endorsement of every commercial organization in Oakland will be a great help to the cause. The bill has been introduced in the Assembly and Commerce and Oakland Commercial Club will take it up and have it endorsed by every other commercial organization in the state. Every newspaper should be for it, because it will increase the population, hence circulation, hence advertising rates, hence profits. Every business man should support it because it tends to increase the number of people to do business with, hence greater profits. It should be a very popular bill and enormously beneficial to the state at large.

The following suggestive figures show the value of municipal publicity. It should be paid for by taxation rather than by individual donation. The figures are worked out, based on assessed values of 1910, based on the accurate government census reports of that year.

The assessed valuation of Oakland in 1910 was.....\$129,000,000
The assessed valuation of Oakland in 1900 was.....65,000,000

An increase in 10 years of \$64,000,000 is an increase of 49.6 per cent. The actual valuation (assessments) being based on less than 50 per cent of value) of over \$129,000,000.

This increase has been accomplished in 10 years by an increase of 100 per cent in population. The increase in population is an unearned increment—absolutely an accident that has attended the assembling of population in the city.

In other words, the city of Oakland, because of its location, has increased its population, hence circulation, hence advertising rates, hence profits. It should be a very popular bill and enormously beneficial to the state at large.

WHAT NEWCOMER BRINGS.
Oakland's population in 1910 was 150,000; her assessed valuation was \$129,000,000, which represents \$858,000,000 of actual value.

If this \$858,000,000 not over \$108,000,000 at the present time, an increase of 100 per cent of improvement. On the contrary, far less—leaving \$150,000,000 at least in land values in the city of Oakland for 150,000 population, the startling figure of \$1000 to each person.

In other words, every family of four people located in Oakland during the last ten years has brought with it \$400 of land values—new created values that do not exist elsewhere.

And the city of Oakland, a corporation composed of stockholders owning stock in proportion to the properties they own, and on which they pay taxes, is \$1000 richer for each family located here in Oakland rather than in Denver or Honolulu, or some other place. And our stockholders, for whom our city officials and our county and state legislators are the board of directors, have had distributed among them by virtue of their one family coming to Oakland just \$4000.

This shows in a wonderful way the importance of getting population. One hundred new people added through advertising would mean that the city of Oakland would have \$400,000 more in land value. What proportion of this could a county justly spend as a matter of good business in order to increase this record?

MERCHANTS PROFIT.
Nor does it stop here. The man who spends \$1500 a year leaves in gross profits with the merchants of the city at least 20 per cent of this sum.

Test it out. The butcher doesn't buy meat for 12 cents and sell it for 15 cents; the drug store, the boot and shoe merchant, the haberdasher, the grocery man, the creamery man—none of them do business on this low margin of 20 per cent. The man who comes to Oakland as a permanent resident and spends \$1500 a year distributes \$300 gross profit among the merchants of the city.

Satisfied that he had accomplished all he could in the flood district, Secretary of War Garrison left Cincinnati for Washington early today.

WATER IS HIGH.
LOUISVILLE, April 1.—At 7 o'clock this Ohio river gauge registered 44.7 feet, a rise of four-tenths of a foot.

DESTROYED FROM FIRE.
HUNTINGTON, W. Va., April 1.—Fire broke out in the flooded resident district here early today and threatened an entire city block but the flames were checked by the use of dynamite. Eleven persons were rescued from the burning buildings.

DAMAGE IS GREAT.
LAWRENCEBURG, Ind., April 1.—An inspection made today showed that 70 homes of persons in good circumstances have been virtually destroyed by the flood here. Relief work is being conducted systematically and there is no suffering.

at a minimum. Keep him here for twenty years and his total profits paid to the merchants of Oakland amount to \$8000. This is for one family.

What is it worth to the merchants of the community to get this business? Suppose, for illustration, one merchant had an order in which the gross profit amounted to \$5000 up for consideration. Who would go after the order representing the firm? What class of man would be sent to make sure of securing this business? Would it be a clerk or the head of a department?

There are just five large drygoods firms in the city of Oakland—Taft & Penney, H. C. Capwell Company, Kahn Brothers, Henry Johnson Brothers and Hale Brothers. Ten years ago there were only three. The number of firms, Hale Brothers mean while having bought out the old Sallingers. During that ten years these firms have been concerned in two things: First, in securing each for itself the greatest possible proportion of the business in its line and second, interested more and more in themselves imagined, in this great big matter of more people coming to Oakland and business would be divided among the five.

BUSINESS GROWS.
Today each one of the five is still giving its close attention to the successful conduct of its business in order to increase its own proportion of the present Oakland business. How much is any one of them doing to bring more population to their city and with the growth of the city five businesses have grown until today a tremendous business as compared with that of the smallest firm or store in the city. Surely they are interested in this great matter of more population.

Furthermore, as the five stores mentioned have grown, they have been getting all of the Oakland business to the detriment of the others, but all of them increasing because of the new business brought by new people. The five stores together have about \$300,000 property value on the site of the Taft & Penney; and another \$300,000 at the corner of Broadway and Clay. They own the Capwell site—property values that did not exist before—and still more across the street and more, and more, and more in the city. The business would not have been here. Without this business there would not be a competition for proper locations and property values.

What value would it be to these five firms should the population of the city of Oakland be doubled tomorrow or one year later? The value of the business would be doubled. This is a matter which every one of these firms is vitally interested in, as is every other business man and every other professional man in the city of Oakland today.

More people means more business. More business—more profits.

CITY BUILDING SCIENCE.
This business of city building is one of the greatest business in the world. It is a science just as much as life insurance. The bringing of the population brings with it an increase in land wealth in the community. The bringing of population increases land values like population.

A successful merchant making a profit of \$100,000 a month through merely connected with it—and these increases in value are profits absolutely—would certainly advertise anything that would increase his business. He would spend \$50,000 a year in getting something worth \$500,000—namely, only 500 people—he would certainly go to it strong.

And if the right sort of men who understand the business of advertising will write the right sort of copy, properly illustrated with pictures and an advertising campaign submitted and passed on by experts before the money is spent—that body of men so employed can do it. The city of Oakland, the city of Oakland in such a way that where it has taken years to bring our present population to 150,000, we could bring it to 300,000 in the next ten years. It is a science. This million a month has been a profit distributed among the tax payers of Oakland in a way that has pleased them immensely.

WHAT NEWCOMER BRINGS.
Oakland's population in 1910 was 150,000; her assessed valuation was \$129,000,000, which represents \$858,000,000 of actual value.

Growing Children Need Good Bowels

Give a Mild Laxative Occasionally to Insure Regular Bowel Action.

As a child grows older it requires more and more personal attention from the mother, and as the functions of the bowels are of the utmost importance to health, great attention should be paid to them.

Diet is of great importance, and the mother should watch the effect of certain foods. A food will constipate one and not another, and so we have a healthy food like eggs causing biliousness to thousands, and a whole some fruit like bananas constipating many. It is also to be considered that the child is growing, and great changes are taking place in the young man or young woman. The system has not yet settled itself to its later routine.

A very valuable remedy at this stage and one which every growing boy and girl should be given often or occasionally according to the individual circumstances, is Dr. Caldwell's Syrup Pepsin. This is a laxative and tonic combined, so mild that it is given to little babies, and yet equally effective in the most robust constitution. At the first sign of a tendency to constipation give a small dose of Syrup Pepsin at night on retiring, and prompt action will follow in the morning. It not only acts on the stomach and bowels, but its tonic properties build up and strengthen the system generally. Mrs. Henry Babler, Van Dyne, Wis., writes that her little son, Melvin Babler, was constipated most of the time until she gave him Dr. Caldwell's

MELVIN BABLER

Syrup Pepsin. Since using this remedy he has never been constipated. The use of Dr. Caldwell's Syrup Pepsin will teach you to avoid cathartics, salts and pills as they are too harsh for the majority and their effect is only temporary. Syrup Pepsin brings permanent results, and it can be conveniently obtained of any nearby druggist at fifty cents and one dollar a bottle. Results are always guaranteed or money will be refunded. If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington Street, Monticello, Illinois, and a free sample bottle will be mailed you.

ONLY 'CASCARETS' IF CONSTIPATED

Gently Clean Your Liver and Constipated Bowels While You Sleep.

Take a Cascaret tonight and thoroughly cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. Men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, paucy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—only merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach and remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action, a clear head and cheerfulness for months. Don't forget the children.

RECLAMATION BOARD GRANTS APPLICATION

SACRAMENTO, April 1.—By a vote of two to one, the state reclamation board yesterday granted the application for the formation of the Sutter reclamation district, involving 60,000 acres in Sutter county and change of location of the Sutter basin by-pass from the center to the eastern line of the basin. The decision followed a number of hearings and several postponements by the board of the final decision for the matter was one of great importance to the involved and scores of protestants appeared before the board to oppose one or the other of the possible decisions.

CAN PRE-COOL FRUIT
WASHINGTON, April 1.—The right of shippers to pre-cool citrus fruits from California points to the east, sustained by the Interstate Commerce Commission, was confirmed today by the commerce court, which declined to issue an injunction against the commission's order.

REPORTS ON OIL AS NAVAL FUEL

Secretary Lane Writes Navy
Can Rely on Existing
Reserve.

WASHINGTON, April 1.—Crude oil as a fuel for the navy will be available from fields in the United States, particularly the California fields, for at least a generation yet to come. This in effect, is the substance of a letter written today by Secretary Lane of the Interior to Secretary Daniels of the Navy in response to inquiries by the latter concerning oil resources.

"Twenty years hence" says Secretary Lane, "the price of fuel oil which then as now will be produced chiefly in California, will be much higher than at present and the production probably will have declined seriously."

"The failure of the oil supplies of the United States will not take place suddenly. The decline will be gradual and will tend constantly to be checked by rising prices."

No relief can be expected in the price of fuel oil at Atlantic ports for commercial uses, relief to the navy from increasing commercial prices can probably be secured only by the development of its own reserves where it should be possible to produce oils at approximately the present cost of production—fifty cents or less per barrel, plus transportation to the point of use.

Secretary Lane expressed the belief that the navy could rely on the reserves already existing for an oil supply for a period greater than the life of any battleship to be constructed within the next decade.

TWO WOMEN HURT THROUGH RUNAWAY

Teachers Hurlled From Buggy;
One Loses Eye as
Result.

YREKA, April 1.—Miss Jessie Mitchell, teacher in the Gazette schools, lost an eye and Miss Genevieve Morgan, teacher in the Independence district five miles west of Gazette, suffered a broken leg in a runaway accident. In company with John Ryan the young ladies went out riding. When they came to a turn where the road was very narrow, Ryan got out of the buggy and went to the heads of the horses to quiet them. As he was standing in front of one of the horses lunged and got astride of the tongue, which struck Ryan and knocked him down. This tearing of the tongue and buggy passing over the driver. Both women were thrown from the vehicle. Miss Mitchell struck against an oak tree a branch of which penetrated her right eye and destroyed it. Miss Morgan fell in such a way that both bones of her left leg were broken four inches above the ankle. Ryan was unhurt.

TO PATROL SEA FOR ICEBERGS

Two Revenue Cutters to Keep
Watch, Reporting by
Wireless.

NEW YORK, April 1.—The revenue cutters Seneca and Miami started today for the region of the Grand Banks to patrol the waters for icebergs and field ice during April, May and June. They will watch the movements of the ice and report by wireless to the hydrographic bureau at Washington the movements of the big bergs toward the tracks of the Atlantic liners.

The Seneca and Miami will co-operate with the British steam whaler Scotia, which has been sent to the banks of New Foundland by the English government to patrol on the eastern side of the Grand Banks.

LOBSTER PALACES CLOSED AT 1 A. M.

Police of New York Enforce
New Order of Mayor
Gaynor.

NEW YORK, April 1.—Promptly at 1 o'clock this morning the police descended on all-night restaurants in Upper Broadway and forced them to close. This action was taken as the result of the recent order of Mayor Gaynor suspending all-night liquor licenses and instructing the police to see that all the "lobster palaces" where carousal shows are held shut down promptly on the stroke of 1.

A majority of the restaurants had closed on time. In several, however, the proprietors declined to request their patrons to leave. A few patrons were arrested and charged with disorderly conduct.

MRS. HEARST TAKES GUESTS TO FESTIVAL

FALO ALTO, April 1.—Mrs. Phoebe Hearst and several eastern friends, who are guests in Pleasanton, arrived here yesterday afternoon on an automobile trip around the bay. They spent several hours in sightseeing at Stanford and in this city, later visiting the blossom festival in Saratoga. In the party were Henry M. Rogers of Boston, Miss Victoria Ridd of Munich and Miss Ethel Whitmore of Pleasanton.

LOGGERS DROWNED IN SIUSLAW RIVER

Eugene, Or., April 1.—While attempting to save a drive of logs from being swept down stream by high water caused by continued heavy rains, James Myers, George Myers, Ralph Allen and Cleo Dover, loggers, were drowned yesterday in the Siuslaw river, 40 miles west of Eugene. The bodies have not been recovered.

Delicious Saratoga Chips made with

Cottolene

Saratoga Chips made with Cottolene are never greasy, as are those made with lard. The reason for this is that Cottolene heats to about 100 degrees higher than either butter or lard, without burning, quickly forming a crisp coating which excludes the fat. Your chips, therefore, are crisp, dry and appetizing.

Cottolene costs about the same of lard and will go on one-

thing farther.

THE W. E. SPENCER COMPANY

BIG TRACT FOR SUGAR PLANTING

Rice Will Also be Raised in
Butte and Glenn
Counties.

CHICO, April 1.—Fifteen thousand acres of land changed hands yesterday when a deal that had been hanging fire for many months was consummated in this city whereby a score of individual property owners transferred to Gustave de Brattville of San Francisco, a brother-in-law of Adolph Spreckels, their holdings for an amount that will approximate \$1,000,000.

This land is 15 miles in length and from 4 to 6 miles wide and lies wholly between Nelson in Butte county and Butte City in Glenn county.

Sugar beets and rice to supply raw material for a large sugar factory and a rice mill, to be erected, will be planted.

Ten per cent of the first payment was made this afternoon.

The holdings transferred in the deal comprised the McIntosh ranch, 1225 acres; H. P. Bruce and J. E. Jones, 1440 acres; Reed & O'Connor, 1240 acres; Lusk estate, consisting of the old Spence ranch and O. W. Nelson home place, 1700 acres; Chas. Hansen, 2200 acres; Fluck ranch, 1200 acres; Ben E. Crouch, 1000 acres or more; Wendell Miller, 2080 acres; Garrett ranch, 875 acres; Noble ranch, 320 acres, and H. S. Goodman, 900 acres.

Photographers Make Gruel- some Discovery; Authorities to Investigate.

CHICO, April 1.—While taking pictures in the famous Deer Creek country, from which came Ishi, the aborigine at the Affiliated Colleges, Martin and Henry Smith of this city encountered evidences that indicate that many human beings met death at the hands of the Indian tribes, or that a tragedy of more recent date was enacted in the wilds of that region.

The photographers found first the skull and skeleton of a boy, apparently about 15 years of age. On further investigation more human bones were found in a cave and evidences that it was a veritable death cellar. There were gruesome relics of every kind, and a little digging revealed other skeletons, presumably of a woman and babe.

The matter has been reported to the authorities and an investigation will be made.

VISCOUNT WOLSELEY GIVEN MILITARY HONOR

LONDON, April 1.—A full state funeral was accorded the late Field Marshal Viscount Wolseley yesterday when his body was interred in the crypt of St. Paul's Cathedral alongside those of Nelson and Wellington. The pall of yellow fog that enveloped the city was so dense, however, that the tens of thousands of persons who lined the streets to pay their last tribute to the popular war veteran could see but little of the ghost-like procession of soldiers with a gun carriage in their midst.

The Duke of Connaught represented King George and a dozen of the most distinguished field marshals, admirals and generals acted as pallbearers.

MOTORCYCLE AND
BUGGY COLLIDE

Four Persons Injured in Accident on Foothill Boulevard.

HAYWARD, April 1.—As a result of a collision between a motorcycle and a buggy on the boulevard near Castro Valley about 10 o'clock last night four people received injuries of a more or less serious nature.

The injured are Captain and Mrs. Giddings of Castro Valley, the occupants of the buggy; and Mr. and Mrs. Fred Sprague of 5124 Thirteenth street, Oakland. All are now in the County Infirmary with the exception of Mrs. Sprague. Captain Giddings had his face badly lacerated, his shoulder dislocated and besides suffered severe abrasions. His wife was also badly bruised and her face and head cut. Sprague was injured about the head and bruised, while Mrs. Sprague in addition to general abrasions suffered from shock. All were in a dazed condition when taken to the infirmary last night.

The accident occurred near Castro Valley. Captain and Mrs. Giddings were returning home in their buggy. The Spragues, on a motorcycle, approached from behind and it is thought had failed to notice the buggy in front of them. The motorcycle ran into the back of the buggy. The machines were upset and both parties were thrown to the roadway, where they lay stunned until help arrived. The injuries are not, however, of a serious nature.

The motorcycle and the buggy were slightly damaged as a result of the collision.

RICHMOND WATER
BILL IS SIGNED

Owens Measure Made Law by Governor and Plant is Assured.

RICHMOND, April 1.—Richmond is now in line legally for the acquisition of its own municipal water plant and distributing system, in connection with the annexed districts, San Pablo, Grant and the adjacent territory, for the first of the bills to be signed by Governor Johnson during this second period of the legislative session was Senate bill No. 645, introduced by Senator J. C. Owens of Richmond, representing Contra Costa and Marin counties. The bill provides that the Richmond water district be formed by the board of supervisors of this county, is recognized and declared valid and all other proceedings on organization and formation are approved.

The district, has been formed, five water commissioners have been elected and are now at work studying the problem which confront them. The Hetch-Hetchy matter is being watched by them, as in the future water project gets through the new water district here would likely buy its water from that source and distribute it through a municipally owned plant to be established.

SCARCITY OF WATER
IN AMADOR VALLEY

PLEASANTON, April 1.—According to H. M. Mohr, one of the largest farmers in the Pleasanton district, the water in the wells in the Amador Valley is going down about two inches in every twenty-four hours. Mohr states that there are six wells on his place and that the water in these wells is now 35 feet from the surface, whereas they have been as high as 10 feet from the surface.

BURGLED GET COIN.
PIEDMONT, April 1.—Burglars entered the home of C. Fraser, 664 Fifty-sixth street, and stole \$100 in coin. The entrance was effected through a window.

RICHMOND NOTES

RICHMOND, April 1.—The inquest into the death of the late Claude Tausche, who committed suicide at his home at 1000 Broadway, will be held by Coroner C. L. Abbott at the Emilewood undertaking parlors, 100 Richmond avenue, next Friday. The coroner was busy today citing jurors for the inquest.

Rev. Guy A. White, pastor of the Presbyterian church, has announced that he will deliver a sermon next Sunday on the subject of "Relief in Immortality from the Standpoint of Belief."

The case of Frank Gill, an Oakland man, for violating the speed ordinance, will be called in the police court this afternoon.

R. Gordon, who was arrested on Macdonald avenue in an intoxicated condition, was given \$500 in the county jail by Judge Lindsey this morning.

A warrant was issued by the police court this afternoon for the arrest of Jane Doe Lynch, at 470 Fourth street, for selling liquor without a license. The warrant was issued by Judge Lynch.

The complaint was sworn to by George H. Reitz, who acted under the detective department of the city police office.

CAMPAIGN AGAINST
SALOONS BEGINS

Hayward Mass Meeting of Good Government League to Start Movement.

HAYWARD, April 1.—A big mass meeting in Hayward next Sunday will start an anti-saloon campaign on the part of the recently formed Good Government League of Hayward. Temperance advocates from all parts of the state will attend the meeting. The principal speaker will be Dr. A. C. Bayne, superintendent of the Anti-Saloon League of Northern California.

A musical program will be given by a choral choir in charge of Miss Obermuller. Discussions on the anti-saloon question will be entered into by the meeting, and plans made for the conduct of the campaign.

The Good Government League is a strong organization, the object of which is to secure the prohibition of saloons in this community. The league is endeavoring to bring about local option in Hayward and district. Officers have been elected as follows: Chairman, Rev. H. Lee; vice chairman, Dr. D. Dodder; secretary, Mrs. A. Mansfield; treasurer, Mrs. M. A. Cowan.

SAN LEANDRO, April 1.—Members of the newly formed San Leandro Court No. 736, Court of Honor, will pay a formal visit to Oakland Court today. Officers of the Oakland Court performed the initiation ceremony here and also installed the officers of the new court. San Leandro lodge has a membership of about forty.

The following officers were elected and installed: Past chancellor, M. E. Robb; chancellor, E. H. Branch; vice chancellor, F. J. Hirschman; recorder, R. L. Clark; chaplain, E. L. Hambley; conductor, H. D. Hambley; guard, A. J. Reynolds; sentinel, Fred A. Jones; director of ceremonies, E. C. Abernethy; F. W. Hughes and a band playing music. The Masonic Temple will be the regular meeting place of the new order.

MONTHLY SMOKER OF
FRUITVALE CLUB HELD

FRUITVALE, April 1.—The monthly smoker of the Fruitvale Social Club, held Tuesday evening at the residence of J. J. Cummings in East Oakland, was one of the most enjoyable in the history of the organization. Nearly all the members were in attendance and the evening was spent in music, dancing and cards. Charles Mills, Walter Hansen furnished instrumental music, and Frank Hughes Jr., E. Hammond, H. Bennett and Edward Costello sang. A brief, but witty speech, was made by F. W. Hughes and a banquet was served, won by Emilie Murdoch, was a feature of the evening.

WILL GIVE DANCE
TO ASSIST NEEDY

SAN LEANDRO, April 1.—A number of prominent San Leandro people are to give a benefit dance Saturday, April 19, to aid a woman and three children who are in need of help. The cause is a worthy one, and the ball will no doubt be well patronized.

The arrangements for the affair are in charge of Mrs. Joseph Oltropia, Mrs. William Oakes and Mrs. J. M. Joseph.

JAPANESE OPERETTA WILL
BE FEATURE OF PROGRAM

MEMBERS OF THE ALTA MIRA CLUB WHO WILL TAKE PART IN ENTERTAINMENT: MRS. T. M. GRANT (LEFT) AND MISS J. E. GREEN.

SAN LEANDRO, April 1.—A dainty Japanese operetta and high class vaudeville entertainment will be given in the Blo chair tonight by the choral section of the Alta Mira club. The program will be rendered under the direction of Mrs. A. Dunning, and Miss A. Mayne, while the orchestra will be conducted by Mrs. Godfrey Retallick.

The actors in the operetta and vaudeville shows will be drawn from the San Leandro social set. Special costumes have been made for the productions and the staging effect will be brilliant, especially in the operetta.

For weeks past the cast has been training under expert coaching and everything is in readiness for a successful performance tonight. The suggestion has been made that the operetta and vaudeville be reproduced on future occasions, and this the choral section may decide to do.

ELMHURST PLANS
BIG IMPROVEMENTS

Roads, Lighting, Transportation Are Under Agitation by Promotion Clubs.

ELMHURST, April 1.—Improvement clubs in this district have a number of extensive improvements on hand, including the laying of better roads and better lighting for the streets. The clubs have provided in their endeavor to get more lights on East Fourteenth street and a large number of incandescent lights are now installed in this district.

Several improvement schemes were discussed at a meeting last night of the Elmhurst Promoting Club, which is achieving good work in improvements here. B. Magnuson is president of the Elmhurst Club and A. N. Dawson secretary.

A meeting of the Elmhurst Board of Trade has been called for tonight. This organization is one of the leaders of the Amalgamated Improvement Clubs Association which has been formed to agitate for cheaper rates on the part of San Francisco to the various points of Oakland. L. A. Lewis, president of the Board of Trade, will preside at tonight's meeting, and questions affecting the welfare of the district will be discussed.

UNION LABOR ENDORSES
COUNCIL CANDIDATES

RICHMOND, April 1.—The "700" Club, composed of the affiliated unions of Richmond, held an important meeting Tuesday evening in the Labor Temple. The hall was crowded to the doors with delegates to the meeting, representing most every craft under the union banners of Richmond. The purpose of the gathering was the matter of launching a union labor ticket for the coming municipal election to be held in Richmond this spring.

Finally it was agreed that William Platon, Fred Egerth and W. L. Lane be endorsed by the "700" Club as labor representatives on the regular at this spring's election.

The three candidates have already the endorsement of the "100" Club, the Richmond Civic Center Improvement Club and the Citizens' Progressive Club of the annexed territory.

All three candidates are well known in Richmond. William C. Platon is a pioneer of Richmond, having in early days been identified with the John A. Gray company. He is at present time employed by the Standard Oil Company, and is a member of the electrical workers' union.

Fred Egerth is the secretary of the Richmond Building Trades Council and a prominent member of the carpenters' union.

W. L. Lane is a prominent member of the hatters' union.

PIONEER REAL ESTATE
MAN PASSES AWAY

RICHMOND, April 1.—W. C. Gray, pioneer real estate man of Richmond, died at his home in Napa Saturday afternoon. He is survived by a wife and two daughters. Decedent was member of the real estate firm of Chichester & Gray, who have been identified with Richmond realty since the city was first established. Gray had been a minister of the Methodist church for forty years, and at the time of his death was on the superannuated list. Although out of the active work of the ministry he still affiliated with the church and never lost an opportunity to attend the annual conference. He was universally liked here and was noted for his many acts of charity. He was an officer in the Union army in the Civil War and served with honor throughout the entire war.

The funeral will be held this afternoon at Napa, where the decedent lived, and will be conducted under the auspices of the Grand Army of the Republic. Many of his Richmond friends went to Napa to attend the funeral.

To appreciate the horrors of drink, one has only to hear Cap Hobson convert the money spent for rum into the price of dresses.

FIRE DESTROYS
MELROSE HOME

Mother Carries Children to Safety; Cottage Razed to Ground.

MELROSE, April 1.—Fire totally destroyed a cottage at 1610 East Fourteenth street this morning. The house was owned by Frank Antonio, a business man of Oakland. Mrs. Antonio first observed that the house was on fire. She promptly carried her children to safety before the flames spread. In a few minutes the cottage was ablaze, and although an attempt was made by the neighbors to get out some of the furniture, only a few articles could be rescued.

The fire department found that the cause was a short circuit in the wiring. The damage is estimated at about \$300. There is some doubt how the fire originated, but it is thought that it may have been caused by the fusing of electric wires.

Heed the Cough that Hange On. The seeds of consumption may be the cause, and a cough that hange on weakens the system. Foley's Honey and Tar Compound checks the cough, heals the inflamed membrane and cures the lungs. E. D. Rountree, Stillmore, Ga., says: "La grippe left me a deep-seated hacking cough, which I could not get rid of. I bought a bottle of Foley's Honey and Tar completely cured." NEW CENTURY CLUB CONVENES

The regular luncheon of the Oakland New Century club took place Friday at the clubhouse at Sixth and Portia streets. A full attendance was present, and the table was prettily decorated with fruit blossoms and daffodils. Seven new members were admitted to the club.

The recent three-days' fair, which was so successful in every respect, caused a decision to give a fair every month hereafter in the clubhouse, to last one day. The next sale will be about the middle of April. The nominating committee, which will choose the candidates for club officers, was elected as follows: Miss Winnie McFarland, chairman; Mrs. E. W. Sloan, Mrs. H. L. Eastman, Mrs. O. F. Olson and Mrs. C. N. Walter. Officers will be elected at the next meeting.

Arrangements were made for a basketball game in the gymnasium between the members of the Boys' club and a team from the Y. M. C. A. in the near future. A donation of \$25 has been received by the garment classes for goods to be made up. The gift comes from the League.

COMMISSIONER OF
FISHERIES RESIGNS

WASHINGTON, April 1.—George N. Bowers, federal commissioner of fisheries, sent his resignation today to President Wilson, to become effective April 10. Hugh M. Smith, deputy commissioner, is slated to succeed him.

'DOLLAR AT HOME' CAMPAIGN TO BEGIN; FUND WILL BE SENT TO FLOOD VICTIMS

**Lend Your Auto, Is
Appeal of Local
Women**

**Final Rally Is Scheduled
Tonight for Chamber
of Commerce**

Local organizations for the relief of flooded Ohio and Indiana are in need of automobiles to assist the several hundred women, headed by Mrs. Frank K. Mott, who will inaugurate a "one dollar" campaign tomorrow.

"Your automobile could do no better service on Wednesday than help this noble band of women to aid in this crisis. Telephone that your machine is ready for service to Oakland 182." Such is the plea of L. A. Hearin, chairman of the automobile committee.

RALLY TONIGHT.

The final rally before the opening of the \$20,000 campaign to raise funds for the sufferers in Ohio and Indiana will take place tonight in the auditorium of the Chamber of Commerce building. Hundreds of women have telephoned their willingness to take part in the fund-raising and everything points to success attending their efforts.

Organization has been completed under E. R. Bull. Oakland has been divided into 16 districts and in each of these 100 women will make the appeal for substantial expressions of sympathy.

"Oakland's reputation hangs in the balance," said Bull this morning. "We cannot afford to fall down in this campaign. There is no house in the city that should be without a dollar when the workers call."

FUND TOTALS \$5414.

Funds that have been contributed so far total over \$5414.35, and as the real necessity for a determined campaign is only just being understood, it is looked upon as a favorable sign of what is to come.

The boxing exhibition which was to have been conducted as part of the general benefit campaign at Piedmont Pavilion has been postponed until next Monday night, as the committee believed that too many attractions have been staged for the present week.

The women in tomorrow's campaign are as follows:

CHARITY BALL SUCCESS.

The charity ball at the Hotel Oakland last night was attended by a large number of society folk of the east bay cities, who danced merrily to the dulcet strains of the orchestra until a late hour for the behoof of the suffering hundreds who have lost their all in the recent floods in the east. Many delightful little supper parties enlivened the large dining-room of the new hotel after the dance.

The handsome ivory ballroom was donated to the committee for the ball by the management, and the programs and other features of the dance were donated by prominent merchants and business men of the city.

The ball was given under the auspices of Mayor Mott, the Chamber of Commerce, the Commercial club, and a number of other organizations of the city. The men of affairs who were on the committee of arrangements in Oakland society, including Mrs. Frank C. Havens, Mrs. Henry Miles Bull, Mrs. Francis Cebert Capwell, Mrs. Oscar F. Long, Mrs. Frank K. Mott, Mrs. A. A. Moore, Mrs. Charles Minor Goodall, Mrs. Edward Lacey Brayton, Mrs. William G. Zenshaw, Mrs. J. P. H. Dunn and Miss Annie Florence Brown.

TALENT TO BE HEARD.

Cla Butt, the world's greatest contralto, and Kennerly Rumbold, the eminent baritone, will sing at the great matinee at Ye Liberty Playhouse Thursday afternoon, for the benefit of the Ohio flood refugees.

Miss Butt is recognized as one of the very best singers now before the public. When she learned of the worthy object of the matinee she immediately volunteered her services.

She secured the endorsement of Manager Bishop of Ye Liberty.

The complete program includes some 20 separate numbers. Here they are:

From the Orpheum—Digby Bell and company in "It Happened in Tonka," Will Dillon, the popular song writer, in his own songs: Bert Howard and Effie Lawrence in "The Clinker Girl," Dorothy Harris, singing comedienne, From Ye Liberty Playhouse—Scene and act, "The Rains of the Ranch," played by the Bishop players under the stage direction of Milton Stallard. From Pantages—Karl, playing his original instrument made of a cigar box, pine stick and one string; Jack Kluder and Francis Kelly in "In a Department Store."

From the Columbia—Ben Dillon and Will Klug as "Themselves," Sid De Gray and company.

From Isora Park—The Band La-

monaca of 35 pieces, directed by Signor Lamouca.

SPECIALTIES.

Bur McIntosh, author, actor, journalist, in something funny.

Muggins Davis and Walter De Leon in selections from "The Campus."

Miss Josephine Newman and Oscar Young, "The Pianist and the Ingenue."

Miss Helen McGregor, formerly of Ye Liberty, in "Imitations of Harry Lauder."

Elizabeth Gale, aged 9 years, songs and dances.

Louis Winifred Grange, contralto, selections.

Then there will be motion pictures of the Ohio and Indiana floods and the Omaha disaster, furnished by Guy Smith of the Broadway Theater and the Oakland Photo Theater.

State Supreme Justice Henry Melvin will open the program with a short talk. Father McQuade of San Francisco will also speak.

During the performance Ferris Hartman, who needs no introduction, and Thomas C. Leahy, equally well known, will keep things moving with their songs and repartee.

BENEFIT CARD PARTY.

FRUITVALE, April 1.—The women are more than pleased at the success which has attended their preparations for the flood benefit card party and ball which is to be held in Carpenters' Hall, Fruitvale avenue and East Twelfth street, tomorrow evening.

The tickets have been sold promptly and the attendance promises to be large. Mr. and Mrs. J. V. Mattison and F. H. Seeley, well-known musicians, will furnish music and the arrangements have been made for the card party which promise to make it interesting.

The patronesses of the affair are: Mrs. Daniel Crosby, Mrs. E. R. Dawson, Mrs. P. T. Clay, Mrs. Fred Eakin, Mrs. A. Gilliland, Mrs. E. H. Hough, Mrs. E. H. Maxwell, Mrs. Howard Bray, Mrs. William Dougherty and Mrs. G. E. Tuman.

PLAN CHILDREN'S DANCE.

The Fairlawn Hotel has been donated for a children's dance on Friday night by Mr. and Mrs. P. H. Zapettini and hundreds of little folks will make the big resort the scene of their happiness. Those active on the children's dance committee are Mrs. H. J. Manhart, Mrs. C. A. Spear, Mrs. W. D. Pinkston, Mrs. L. R. Robertson, Mrs. George Brown and Mrs. Daniel Crosby.

Benefit days will be given by the Star Theater on Thursday and Brown's Theater on Friday and the proceeds turned over to the Fruitvale women, who will in turn see that the money reaches the Ohio and Indiana sufferers through the hands of the flood relief committee.

CHINESE GIVE AID.

SAN FRANCISCO, April 1.—The members of the Six Companies Association and of the Young China Association last night raised \$300 for the relief of the flood sufferers in Ohio and Indiana. A letter was drafted to the Red Cross to the effect that the San Francisco Chinese were ready to give thousands of dollars if necessary and that they were grateful for the money contributed last year by the American people for the flood sufferers in China. In Fresno \$500 additional was raised, according to word received here this morning.

Sohst Wins Long Fight With Kaiser

German Emperor's Trouble With Tenant Is Settled Amicably.

BERLIN, April 1.—The German Emperor's trouble with his tenant Helmut Sohst has been settled amicably after being before the courts for months. The tenant has consented to vacate his farm voluntarily, although his lease has five years to run. The consideration paid him has not been made public, but he is to receive the Order of the Royal Crown as a token of the Emperor's retraction of the statement that he had "thrown out his tenant because he was utterly inefficient."

TO WAGE FIGHT AT SACRAMENTO

Business Men to Urge Reduction of Mile Limit Law.

To wage a fight before the Miles committee, which meets at Sacramento tonight, to allow the new Claremont Hotel, although inside the mile limit, to serve liquor to its patrons, delegates from practically every commercial organization in Oakland will tonight, in a special train chartered by the Oakland Commercial club, visit the state capital. The train will leave Oakland over the Southern Pacific line this afternoon and will arrive in Sacramento in time for the committee to attend the session.

The delegation will put up arguments to show that part of the success of the hotel, one of the largest enterprises in the state, depends on its being able to operate as any other first-class metropolitan hotel. The enabling law planned will reduce the mile limit to three-quarters of a mile, as the saloons, as the Berkeley city limits affect others. The Claremont Hotel is just inside the Oakland line.

The committees going to Sacramento tonight will include the following: Mayor Frank K. Mott, Harmon Bell, president of the Commercial Club, Sheriff Frank Barnett, Commissioner William J. Bacon, R. A. Perry, W. H. Townsend, R. E. Ayer, F. J. Walker, E. P. Miller, W. F. Hawks, II, J. L. Linnam, Fred E. Reed, W. J. Layman, A. S. Lavenson, A. A. Denton, secretary chamber of commerce, W. E. Gibson, president chamber of commerce, Theodore Gier, and Wilbur Walker, representing Merchants' Exchange; D. E. Perkins, and others.

WILSON CONFERS ABOUT CURRENCY

Has Brief Talk With Senator Owen; to See Underwood Tonight.

WASHINGTON, April 1.—Senator Owen, chairman of the new Senate currency committee, had a brief talk today with President Wilson about currency legislation. Senator Owen gave out no details, but said the President laid the foundation for future conferences. He expressed the opinion that within probably several individual bills would be introduced, one measure would be clothed with administration support.

Attention of the administration is centered on the tariff and the tariff committee, which has a second conference with the President on the new bill.

So far as can be learned, the President's mind is still open both on the sugar question and whether tariff should be revised, schedule by schedule, or in a single bill. The President likewise has reached no decision as to whether the income tax feature of the bill should provide for a flat tax or a graduated system.

Louis B. Brandeis of Boston and John Fursey Mitchell of New York will confer Friday with the President on economy and efficiency in government.

ASSESSMENT PLAN IS NOT CONTRACT

Woolner Rules Street Work Does Not Come Under Eight-Hour Law.

That street work and sewer work done under the assessment plan by contractors does not come within the meaning of a public contract, and is therefore not governed by the eight-hour law for public work, was the substance of a legal opinion rendered by the city council this morning by City Attorney Ben F. Woolner. The opinion was rendered in response to a communication from F. H. Pratt, secretary of the Building Trades Council, asking that contractors at work on Grove street and Telegraph avenue be forced to work their men eight hours instead of nine.

Woolner based his conclusion on a Supreme Court decision. This decision states that when a city contracts with a contractor for the construction of a public work, the meaning of the eight-hour law under the contract is paid for not out of the city treasury, but by private individuals, who are not to be considered as the meaning of the eight-hour law of the city charter.

The city clerk was directed to send a copy of the opinion to Pratt.

OMAHA WOULD RAISE FUND OF \$1,250,000

CHICAGO, April 1.—A committee of Omaha business men arrived in this city yesterday and is occupied today in canvassing railroad, packers and others who have an interest in the prosperity of the city, in which Omaha is situated. Members of the committee include Douglas Rosewater and J. C. Lammiman, mayor of Omaha.

MASONS ISSUE CALL FOR RELIEF FUNDS

A call for subscriptions to the fund to aid the sufferers of Ohio and Indiana has been issued by the local committee of the Scottish Rite Masons, through A. H. Thraher, secretary. The committee, composed of Walter J. Peterson, chairman, A. Jones and A. H. Thraher, is endeavoring to raise a considerable sum, which will be forwarded to the districts affected by flood and fire. Subscriptions from members of the order and others interested have been solicited.

AMERICAN SHOT.

WASHINGTON, April 1.—Albert H. Lawrence, an American on the El Potrero ranch, near Vera Cruz, is reported shot and seriously wounded. No details are given.

Rheumatism as a result of kidney trouble, stiff and aching joints, backache and sore kidneys will yield to the use of Foley Kidney Pills. They are tonic in action, quick in results, curative always. W. S. Shelton, Stanley, Ind., says: "I would not take \$100.00 for the relief from kidney trouble I received from one single box of Foley Kidney Pills." STATE SENATOR ASKED TO RESIGN

**Governor Sulzer Acts Upon
Complaint of Prominent
New Yorker.**

ALBANY, N. Y., April 1.—Governor Sulzer has today called upon State Senator Stephen J. Stilwell of New York City to resign.

The governor acted upon a complaint made by George H. Kendall, president of the New York Bank Note Company, alleging that Stilwell demanded money of him to pass certain stock reform legislation.

Senator Stilwell introduced the stock exchange bills recommended by Governor Sulzer and is chairman of the codes committee, to which several of the measures were referred. Governor Sulzer made public today the following telegram from Kendall:

"I offer you evidence that Stilwell, the man you sent to draw my stock exchange bill, charged me \$250 for drawing it. He introduced me to Senate Revision Clerk Lewis and asked me to send check for that amount to him and they divided proceeds of check. I offer you evidence that Stilwell wrote me March 21 to come to his office next day and demanded \$500 each for four Senate committee men to report the bill out of committee."

"I declined his proposition. He called me up next day and told me there was nothing doing unless I paid \$3500 in advance."

"I replied I would telegraph the whole matter to you and every legislator unless he reported the bill out in 24 hours. He did it. Under same penalty I demanded of him that my bill be reported out of the Assembly committee and it was done in 48 hours."

"I think I ought to let you know anyway. If you want some undomestic hearsay evidence of the stock exchange using a large amount of money to defeat the incorporation bill I am willing to tell you what Stilwell told me. No newspaper has anything of this. (Signed) 'GEO. H. KENDALL, President New York Bank Note Co.'"

STILWELL'S ANSWER.

Senator Stilwell, when shown the Kendall telegram to Governor Sulzer, said:

"The fact that Mr. Kendall's telegram ends with the words 'no newspaper has anything of this' is the best evidence of the reason why Governor Sulzer and Mr. Kendall bring out this telegram at this time. The hearing on the stock exchange incorporation bill takes place on Thursday afternoon before the Senate judiciary committee and I suppose Governor Sulzer imagines that the effect of this telegram will compel the judiciary committee to report his incorporation bill."

"The entire story is so false and so absurd that it is scarcely worth replying to."

JEWELRY STOLEN.

SAN FRANCISCO, April 1.—Two suspicious characters were seen loitering in front of the Lindow Jewelry Company, 17 Kearny street, at 4 o'clock this morning by 2 officers, who ran for the police. When Officers Quinn and Nolan arrived they discovered that a showcase had been broken open and jewelry to the amount of \$58 taken.

SALOON QUESTION IS VOTED ON IN DENVER

DENVER, April 1.—The saloon question, submitted to the voters under the state local option law, is being decided today at elections in a number of Colorado towns.

At Colorado City, a suburb of Colorado Springs, the liquor men won by one vote on the face of the returns two years ago, but a recent decision of the court of appeals held that fraud had been practiced and that the prohibition forces had carried to town.

THIEF HIDES IN HOUSE; TAKES DOCTOR'S WATCH

SAN FRANCISCO, April 1.—A burglar who had concealed himself in the home of Dr. W. N. Thompson, 3 Haight street, last night, succeeded in stealing a gold watch. The physician left his room for a moment to go into the kitchen, and returning missed his timepiece and found the front door open.

Freasks Power

in advertising sometimes pay.

in advertising always pays.

Classified ads are the surest test of a newspaper's power—the little advertiser has a direct check on the returns and will not patronize the paper that does not bring results.

For the first three months of 1913

The Tribune

printed over twice as many classified advertisements as its nearest competitor and more classified advertisements from Alameda county than all the other Oakland and San Francisco papers combined. Its pulling power is what has made THE TRIBUNE the big classified medium—excelled by one paper only in all of Central California.

LA FOLLETTE'S BROTHER
MAY BE GIVEN OFFICE

WASHINGTON, April 1.—Although the White House declined either to deny or affirm the report it was developed yesterday that President Wilson virtually had decided to appoint William L. La Follette of Wisconsin, a brother of Senator La Follette, to the position of register of wills of the District of Columbia. The place commands a salary of \$4000 a year. La Follette has been a life-long Democrat and conducted the Wisconsin campaign for President Wilson. He is ten years older than his Progressive Republican brother.

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, and was thin, weak and nervous. When I would lie down it would seem as if I was going right down out of sight into some dark hole, and the window curtains had faces that would peek out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness, my abdomen was sore and I had awful pains."

"I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."—Mrs. W. F. SAWYER, River View Farm, Moretown, Vermont.

Another Case.
Gifford, Iowa.—"I was troubled with female weakness, also with displacement. I had very severe and steady headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."—Mrs. IMA MILLER, Gifford, Iowa.

**STEAMERS CRASH;

**Steam Schooner Has Close
Call as Result of Accident.**

SAN FRANCISCO, April 1.—Saved from foundering by canvas tarpaulin stretched over her bow, which was shattered in a collision with the steam schooner Yellowstone, the steam schooner Temple Dorr, Captain Ole Nelson, put back to port yesterday afternoon. At one time there were five feet of water in the vessel's hold and her heavy cargo of cement was causing her to settle deeply in the water. But for the skillful work of her crew in patching up the leak, the craft would undoubtedly have become waterlogged or taken the long dive to the bottom.

The collision occurred Sunday afternoon, fifty-five miles north of Point Arena during a dense fog. The Dorr, which left here Saturday for Coquille river laden with cement, was feeling her way cautiously up the coast in the heavy mist. The Yellowstone, Captain Patterson, bound south from Seattle, was also proceeding under half speed, according to the officers.

The Temple Dorr is owned by the Hicks-Hauptman Lumber Company. She will be held up some time for repairs. Repairs to the Yellowstone will be effected, so, as her damage is above the water line.

**President Wilson to Occupy
House on Churchill
Estate.**

CORNISH, N. H., April 1.—Hariakenden House, on the Winston Churchill estate, which is to be occupied by President Wilson this summer, will be ready for house by the middle of April.

The work of renovation was begun yesterday. No extensive alterations will be made, but two weeks will be necessary for the regular spring house cleaning, painting and other minor improvements.

The house contains about 20 rooms, of which 16 are sleeping chambers. It is only two stories high, except on the west end, where the precipitous side of a cliff makes possible an additional story under the ground floor.

**Question of Admitting Autos
Into Yosemite Will be
Considered.**

(By EDMUND CRINNION.)
Inasmuch as the motif for this article happened yesterday, it is to be hoped that the motorists of this territory will not deem it too good to be true and suspect the writer of trying to carry the spirit of this first day of April into the columns of THE TRIBUNE. Yesterday, according to wires received here, it is stated that Secretary of the Interior Lane has ordered Major William T. Little, brand, the newly appointed acting superintendent for the Yosemite National Park, to proceed at once to the park and before the season opens make a report on the question of admitting automobiles.

Automobiles by hundreds are writing letters to the Interior Department, clamoring for admission. Just what roads it should be turned over to automobilists and whether or not these roads can be made safe for the traveling public are the questions that Lane said today he wanted to settle. Major Littlebrand is expected to make a report within the next month.

This action on the part of the Secretary is the cause for much rejoicing on the part of the motorists here, inasmuch as it shows a tendency on his part to at least give the matter careful consideration. However, it is hard to see just how the Major can make a report of any kind at present, while the entire park confines are covered with mantles of snow. The only probable information that the officer can avail himself of at this time is the data that was left him by Major Forsyth, a sworn enemy of all self-propelled vehicles.

There may be cause for surprise to many little fact that Secretary Lane is asking for a report instead of availing himself of the voluminous documents compiled by the clerks in attendance at the recent conference with the state motorists and Secretary Fisher last summer, but the truth is that Fisher with skillful intent cut short every speaker the minute any telling argument or information was forthcoming. Also despite the fact that the Northern California A. A. representative, who was present at the conference, was purposely omitted by the motorists from the list of speakers to represent the gathering on account of his antagonistic attitude to the question at stake, was allowed to talk at length by the Secretary as was Major Forsyth, both of whom exerted every effort to defeat the rights of the automobile owners of the state as well as those who will come in the future, to find California's most wonderful spot denied them unless they travel in on a tiresome and unreliable stage coach.

It appears evident that Secretary Lane had an inkling of the manner the conference was handled here last summer and the way the real representatives of the automobile owners were browbeaten and misrepresented despite their courageous fight put up to get the records clear by Congressman Baker, Senator Curtin, Fernando Nelson, R. K. Roberts of the Buick house and the representatives of the Southern California delegation, and he proposes to get at the bottom of the matter and start with a clean slate. It is to be hoped that the Secretary favors us with a decision by early spring.

FIRESTONE PLANT SAFE.
Howard Holmes of the Holmes & Olson tire factory, Akron, Ohio, received word from the president of his company stating that the manufacturing plant at Akron, Ohio, was not harmed by the floods that have been raging in that district. The Firestone factory is located a considerable distance from the river, so far that the water for the factory is pumped about a mile to a reservoir, which is located on the site of the factory. A double shift is now employed and the factory is able to fill all its orders.

**Clean your sinks
with
GOLD DUST**

No place in the home gathers grease as quickly as the kitchen sink. Gold Dust washing powder, however, has the peculiar quality of dissolving and cutting grease and if, after each dishwashing, a suds is made in the dishpan with warm water and Gold Dust, and the sink thoroughly rinsed with these suds, the last particle of dirt and grease will be removed.

The sink pipe will never become clogged with grease if Gold Dust and plenty of hot water are used for washing the sink morning and evening.

Do not use Soap, Naphtha, Borax, Kerosene with Gold Dust. Gold Dust does all the cleaning and is perfectly harmless.

**AMBASSADORS TO
BE PICKED SOON**

**Majority of Nine Vacancies
May be Filled Before
Monday.**

WASHINGTON, April 1.—President Wilson probably will fill the majority of the nine ambassadorships now vacant before the beginning of the extra session of congress next Monday.

The President expects to confer with many of his friends this week and it is believed that when congress convenes nominations for the more important posts will be sent to the Senate.

Yesterday's developments brought out that Senator Lodge, editor of the World and a close friend of Wilson, had been offered and had accepted the ambassadorship to Great Britain. Page will start for London within ten days.

It was stated at the White House that with the exception of Page no others had been made of any other diplomatic posts. The President has had under consideration a list of men to whom he is favorably inclined, but the chief difficulty has been that many of these men hail from New York state, which he feels already has had conspicuous recognition. Two members of the cabinet, Secretaries Redfish and McAdoo, assistants Secretary Roosevelt of the Navy Department, and Page have made their homes in New York for many years.

MANY ARE MENTIONED.
Augustus Thomas, the playwright, and William Church Osborn have been prominently mentioned for diplomatic places, chiefly France and Germany, but the fact that both come from the Empire state is said to be a circumstance that is giving the President no little embarrassment. He is known to hold both in high regard.

Wilson has been disposed to look further west for some of his diplomatic appointments, and the name of Rudolph Spreckels of San Francisco as probable ambassador to Germany came forward prominently yesterday. Spreckels practically organized and managed the Wilson national Progressive-Republican League, and his appointment, it was said, would be a recognition by the President of the aid given him by the Progressive-Republicans in the last campaign.

Elmore W. Hurst of Rock Island, Ill., who saw the President yesterday, also is said to be slated for a diplomatic post.

Thomas Nelson Page and Joseph E. Willard of Virginia, Justice J. W. Gildard of New York, Frederick C. Penfield of Farmington, Pa., and Henry Morgenthau of New York are among those under consideration for diplomatic appointments, but there have been no decisions as to any of these men as yet.

**COUNT MONEY IN
U. S. TREASURY**

**Coin of Government to be
Checked by Package This
Time.**

WASHINGTON, April 1.—The money in the treasury is again being counted, but this time, with the exception of the cash in the teller's room, it is being counted by bundles. With the induction into office of a new treasury, the United States money in the treasury has to be checked up and the induction of former Governor Burke of North Dakota as treasurer under President Wilson has proved no exception to the rule.

The work is being done in the teller's room. With that finished, the money in the vaults will be hauled out and counted, but instead of counting it piece by piece, as has been done in several instances, the amount this time will be checked by the package. This course has been taken in order to save time, as it has been only about three months since the money was counted last. Should the piece by piece count be followed, it is said that it would take at least three months to finish the job.

**ARCHBISHOP RESIGNS
AS PROVISIONAL LEADER**

SAN DOMINGO, Dominican Republic, April 1.—Archbishop Neuvel, at yesterday's session of the National Congress tendered his resignation as Provisional President of the Dominican Republic. The resignation was accepted and congress will appoint his successor.

His health was given as the reason for Archbishop Neuvel's action, it being announced that he was obliged to go to Europe for medical attention.

General Horacio Vasquez, General Juan I. Jimenes and Frederico Velasquez are candidates for the presidency. Quiet prevails throughout the country.

**SILVERWARE PUZZLE
TO NAVAL AUTHORITIES**

WASHINGTON, April 1.—The navy department has several thousand dollars' worth of silverware on its hands that it doesn't exactly know what to do with. The silver represents the gifts of states or cities to ships bearing their names and which now have gone out of commission. The total value of the gift sets approximate \$300,000, and many of the sets, richly engraved and ornamented with the names and seals of states not now represented by ships are on the department's hands.

**MARINE ENGINEERS
TO BE GIVEN RAISE**

SEATTLE, April 1.—Effective today, marine engineers serving in American vessels on the coastwise passenger service out of Seattle will receive advances in wages averaging 10 per cent. Demands for more pay were made recently by the Marine Engineers' Beneficial Association and it was announced today that all differences between the union and the companies had been adjusted. Seventeen vessels plying out of Seattle will be effected.

**TREASURY REPORT IS
ISSUED AT LONDON**

LONDON, April 1.—The treasury statement for the financial year was issued last night. It shows: Revenue, \$244,009,955; expenditure, \$212,102,550. The revenue is \$7,561,005 over the estimate, while the expenditures are \$1,575,350 below the estimate.

April Sale of Waists
One Hundred and Thirty-five Dozen Waists At Sale Prices.

The Most Important Waist Sale We Have Held.

On Wednesday morning at 9 a. m. we place on sale ONE HUNDRED AND THIRTY-FIVE DOZEN ABSOLUTELY NEW WAISTS at wonderfully attractive prices. THIRTY-FIVE DOZEN of these waists consist of an entire SAMPLE LINE from one of the higher-class makers of fine LINGERIE WAISTS. The other ONE HUNDRED DOZEN were bought at a SPECIAL PRICE to fill in styles and sizes in order to make an absolutely complete assortment.

FOUR FULL CLAY STREET WINDOWS ARE USED IN THE DISPLAY. We have divided them into SIX LOTS. Below we give a very brief description of the several lots, their price, styles and materials:

At 95 Cent Sale Price

A splendid assortment of Volles, Cluny, Valenciennes and Embroidery trimmed. All new styles, coming in low and high neck, long and short sleeves.

At \$1.95 Sale Price

Waists that were to sell at prices to \$3.50. The materials are Volles and Crepes, trimmed somewhat similarly to the 95-cent line, only in better quality. Some of these are trimmed with a very good imitation of Irish lace. High and low neck and long and short sleeves are to be had.

At \$2.45 Sale Price

Waists made to sell at prices to \$4.50. Crepes, Volles and Mulls are shown in this lot. Another feature of these \$2.45 waists is a dull assortment of the Bulgarian colors in embroidery. Low necks with the newest sailor collars predominate. White embroidery is also a very strong feature.

This is planned to be the biggest and best WAIST SALE we have ever held. Come in and see the waists and we will guarantee that you will help to make it so. The windows cannot possibly contain one-quarter of the actual styles and prices represented in this big collection.

On Sale Wednesday Morning at 9 O'clock

**CLAY AT 14TH AND 15TH

**SWITCHMAN ELECTED
AS MAYOR OF TOWN**

DES MOINES, Ia., April 1.—Municipal elections throughout Iowa yesterday developed many peculiar results. Ottumwa, a town of 40,000, elected Patrick Leany, a switchman of the Milwaukee road, as mayor. At Perry, C. Durant Jones, candidate for governor on the Prohibition ticket last fall, was defeated by an overwhelming vote. Washington and Jefferson, towns of 10,000, decided not to have pool and billiard halls, this question being at issue.

There is no case on record of a cough, cold or le gripe developing into bronchitis, pneumonia or consumption after Foley's Honey and Tar Compound has been taken. The genuine is in a yellow package. Refuse substitutes. Watch the Drug Store, 1001 Washington St., corner Tenth.

**PRIMARY ELECTION IS
LEGAL, IS DECISION**

SAN BERNARDINO, April 1.—The recent primary election called to nominate candidates for municipal offices within a comparatively few hours after it was found that many had been disqualified, was declared legal yesterday by Superior Judges Bledsoe and Oster, sitting en banc. Injunction proceedings had been instituted in an effort to keep the names of the primary winners off the election ballot and thereby clear the majority field for J. W. Catlick, the independent candidate, who was the only one whose nomination petition contained the required number of signatures.

A. F. Gilbert, who brought the suit, was ordered to pay the court costs, including fees for a small army of witnesses.

**GUNBOAT ORDERED TO
PROCEED TO SAN DIEGO**

VALLEJO, April 1.—Immediately after being commissioned today the gunboat Yorktown, recently overhauled at the Mare Island navy yard at an expense of \$100,000, sailed for San Diego. Orders to this effect were received yesterday. Stores already have been placed aboard.

Oakland's Unexploited Assets.

Los Angeles made capital out of its scenic surroundings by its persistent advertising and intelligent exploitation. There is no denying the fact that they were worth the publicity, and that such publicity accomplished its purpose in an eminent degree. The development of Los Angeles into the second city in the State as to wealth and population and the upbuilding of a cluster of charming and flourishing incorporated towns and settlements around it are visible results.

Without meaning anything in disparagement of the scenic attractions in and around Los Angeles and its environs which nature contributed and art and enterprise and the expenditure of money and the application of the cultivated taste of the wealthy people who have made for themselves permanent homes there, have enhanced, Oakland and other east bay shore cities have natural attractions infinitely more varied and beautiful which have been largely neglected and received comparatively little publicity thus far in exploitation abroad.

But because these natural attractions of the east bay shore region have received little publicity in the past is no reason why they should continue to be hidden under a bushel in the future. We have more of them to the square mile in and around Oakland than any other city on the North American continent, and that is no exaggeration. They are among Oakland's most valuable assets. All they need is proper publicity to bring results. They are being opened up by sky-line and foothill boulevards commanding sweeping vistas of one of the most beautiful bays in the world, encircled by a chain of mountains and a score or more of towns and cities nestling on the plains at their base and linked together by a string of costly homes setting in emerald lawns and park-like surroundings bordered with fringes of highly cultivated fields and great masses of the colors of wild flowers abloom at this season of the year in the pasture and on the flanks of the foothills. Boulevards and electric railways are also creeping up the narrow and romantic ravines and winding over the crests of the divides in the foothills where all of the human senses are charmed with ever-changing views of nature's glories in its pristine beauty. Within rifle shot of the greatest aggregation of human beings and their activities that have been developed on this western coast are to be found the absolute repose and seclusion of the picturesque wilderness in its brightest and most attractive moods, broken only here and there by the outcropping of the beautiful home of some ardent lover of the natural solitude and the wealth of all that fertile soil and an incomparable climate is capable of developing.

A Story Half-Told.

The editor of the Byron Times is getting a bit cocky. He twits the editor of the Richmond Record-Herald with being a refugee from Colorado, and not content with that, intimates that he is no farmer. If the Richmond editor owns a farm—mark the if—he insinuates that he won it in a poker game. Such breaches of professional etiquette are not to be tolerated. The editor of the Byron Times is too fresh altogether. Every man that abandons Colorado does not leave the State for his health, and it is not unusual for clever men to farm in editorial offices and edit with great skill, perspicuity and profundity on a farm; moreover, if an editor, even an immigrant from Colorado, is fortunate enough to own a farm, it is not right to assume that he won it at poker.

Certain cryptic phrases, to which the editor of our Richmond contemporary is addicted, would indicate that he knows something about the rules of the game. But his knowledge may be only theoretical. We should judge him to be a man willing to take a chance. But when it comes to winning farms, chance must be eliminated from the game. Only skill or science can be credited with such large returns. The Byron editor does not tell us whether the farm of his Richmond contemporary is to be charged to science or skill. Doubtless he knows the difference.

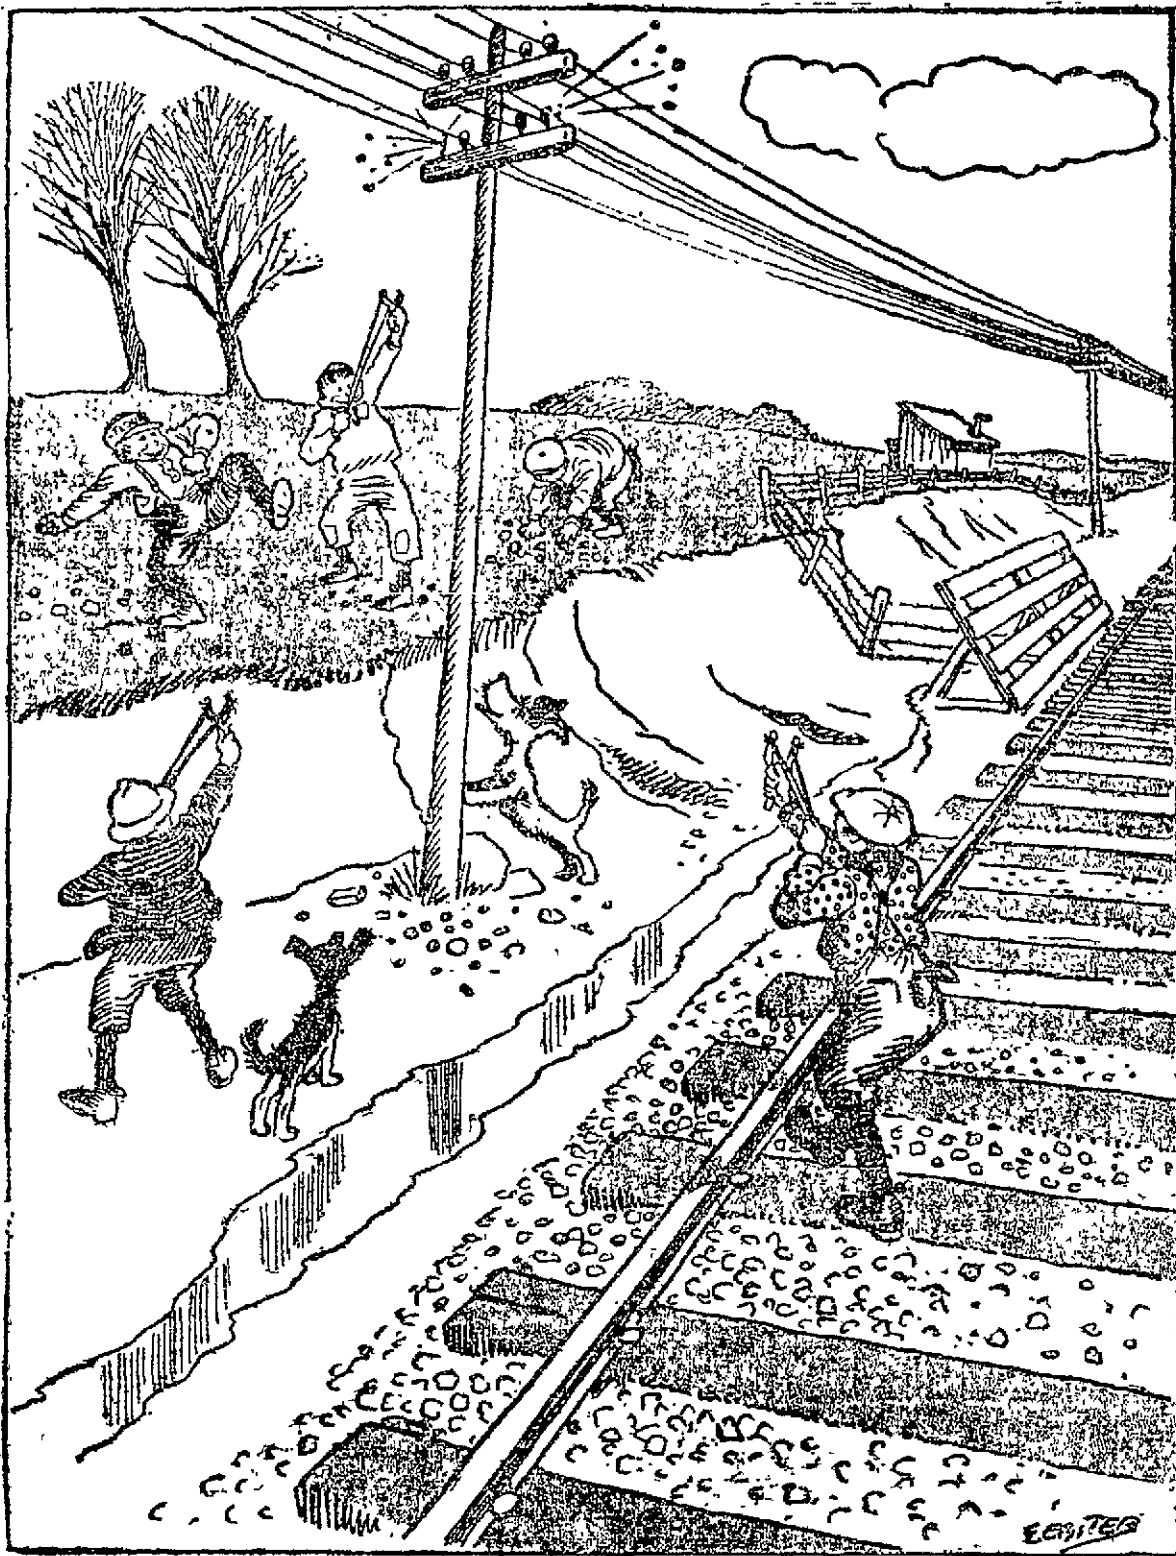

Still the story of the Richmond editor amassing a fortune by peddling vegetables raised by himself is apocryphal. He may peddle vegetables, but he may acquire them without producing them. Sam Davis once described Pat Holland, who ran a vaudeville theater in Virginia City, as a man who had grown rich peddling in the daytime the vegetables thrown at him at night. Perhaps our Richmond contemporary gathers his crop in some similar fashion. He is both enterprising and adaptable. But this poker story—we should like the editor of the Byron Times to tell all about it. He has told too much or too little. If its anything that shouldn't be told, we are anxious to hear it. The editor of the Record-Herald is our friend, and we are always eager to hear the worst of our friends. Probably the Byron editor is spreading the malicious gossip of liars—which makes it all the more interesting. Out with all the dope, you rascal; don't hold anything back. Tell us all about that poker game, and who played the farmer in it.

New York's Dock Construction Plans.

New York is preparing to spend \$15,000,000 for the construction of new docks for the express use of the modern leviathans now engaged in the transatlantic trade. But haphazard methods of dock construction are no longer adapted to the demands of modern commerce. Big docks for the accommodation of the mammoth liners now engaged in commerce must be built on plans to suit the shipowner. The big ships cannot be handled economically at ordinary docks, even if they are long enough to enable the vessels to moor singly alongside. Specially constructed double-decked docks, equipped with the most modern appliances for the safe and expeditious loading and unloading of cargo must be provided to suit the wants of the ship, not the conveniences of the dock builder and owner. The plans of the construction engineer of the docks must be submitted in detail to the shipowners before their inspection and approval.

The New York Harbor Commission has sent its chairman, who is also consulting engineer of the Department of Docks, to Europe to study the latest appliances and methods of handling cargoes at the great ports, for the rapid "mechanical transferring of miscellaneous cargoes from the vessel's hold or from the pier's side, to all areas embraced within the terminal limits." New York means to have the last word in modern dock improvements whatever they may cost, for its commerce is increasing by leaps and bounds and the big Atlantic liners have simply revolutionized the whole business of dock construction and the handling of cargoes. The movements of these great steamships are regulated like trains by railroad time schedules. The equipment of the docks at which they moor must be capable of transferring from

ONE OF THE UNMISTAKABLE SIGNS OF SPRING

—BUFFALO NEWS.

20,000 to 30,000 tons of cargo from the ship's hold to the dock and from the floor of the dock into the ship's hold within a given number of hours to guarantee the sailing of the vessel on the return voyage to the minute, according to the time schedule.

When the Panama Canal is opened to commerce, some of these floating leviathans will be sure to enter this harbor, and if Oakland expects to get their business at its municipal docks, the latter must be built and equipped in every particular to meet the wants of the shipowners. The representative of one of the large European steamship companies engaged in the Atlantic-Pacific trade when approached on the question of utilizing Oakland's water-front improvements when they were completed promptly replied: "Submit to me your detailed plans of construction and the appliances with which the docks will be equipped. If you want us to use your docks they must be built and equipped as we want them."

New York is showing the way. It is taking no chances with the construction of its new docks. They will be equipped to date with the most modern machinery built for handling cargoes with the least delay.

WARNS OF ICEBERGS

Until this year our huge steamships were using just the same methods for iceberg detection as were practiced a century ago. In spite of the great increase in speed, the primitive business of taking temperature readings from buckets of water hauled up the ship's side continued.

The Titanic disaster has opened a new era. The ship of the future will be as fully equipped with accident-preventing appliances as with those for life saving.

Already the captain's "bridge" is being transformed into a high-class instrument room. In a short while it promises to resemble a well-stocked physical laboratory, and prominently among the instruments there will undoubtedly figure the frigidometer, the instrument which proved its utility on the Mauretania by giving warning of an iceberg floating at a distance of 15 miles away.

It is the invention of a Scotch engineer named McVab.

Icebergs are always surrounded by a zone of cold weather. Owing to the fact that seven-eighths of an iceberg is beneath the water, this zone of low temperature is surprisingly extensive.

Hitherto it has been the practice when steaming in doubtful waters to take the temperature of repeated samples of sea water and watch carefully for any pronounced drop in the mercury of the thermometer. The difficulty with the old and crude method has been that the temperature of the water on the immediate sur-

face of the sea is no index of the temperature a few feet beneath.

The new iceberg detector has two "nerve" centers in the shape of thermometers, one placed high on the foremast and the other built low in the keel and at a point well forward.

As the temperature falls degree by degree, the mercury in the thermometers establishes a series of contacts which in turn transmit electric currents to a segmented indicator on the captain's bridge. A loud sounding alarm is also connected with the indicator.

Upon a steamer with this equipment entering an ice-infested district, and the alarm sounding, the observer on the bridge moves two levers round the face of the indicator until the alarm ceases to sound. The position of the levers then shows the air and water temperatures.

The moment either of these temperatures falls further, the alarm again comes into action, and is again only checked by a readjustment of the dial levers. If, owing to a rapid fall, a series of adjustments is necessary within the space of a few minutes, then icebergs are ahead.

The navigator's best plan is to return the levers to the normal temperature positions and deflect the course of the vessel until the alarm once more ceases.

Unless the levers on the indicator are constantly adjusted to the segments corresponding with the temperatures, the big alarm rings incessantly.—London Standard.

SIXTEEN-HOUR DAY

People who do not find a day of 24 hours long enough would have had far more reason to complain had they lived about 45,000,000 years ago. Then the day, as Prof. H. H. Turner pointed out, in his lecture at the Royal Institution on "The Movements of the Stars," was only sixteen hours, though there were 25 days in the month.

Some 10,000,000 years before that the day was ten hours in length, and going back still further in the recesses of time it was reduced to one hour. That was when the earth and the moon were very close together—when they had only recently parted company, in fact, and had started on their career as separate bodies.

The principle applied to a very large class of bodies in the solar system—the double stars. They knew two stars in the sky, so close together that it had

never been possible to separate one from another, even through the best telescopes, though it was known that one of them was very considerably brighter than the other, and it was supposed that one was describing an orbit round the other.

At the other end of the scale there were some stars that had not completed their orbit in the century since they were described in Herschel's diary. Some of them might occupy 200 or 300 years, and there were even instances in which the orbit would occupy thousands of years.

The cause of the changes in the length of our day, said Prof. Turner, was the effect of the tides on the earth's rotation. The moon raised two tides—one side because she pulled away the water from the earth, on the other because she pulled away the earth from the water.—London Chronicle.

WHERE CLAMS CATCH SEAGULLS

A settler on one of the small islands near Vancouver who was returning to Masset by way of the north beach which is a stretch of hard sand miles in extent, beheld to his surprise an unusually large flock of sea gulls beating with their wings upon the sand, evidently in combat with some enemy which was underneath the heap.

Curiosity impelled the settler to investigate the heap of flapping wings and screaming gulls. He was within a few paces of them when one gave the signal of the approach of a stranger, and all flew chattering toward the clouds.

One of the birds, however, was left flapping upon the ground, and on investigation it was found a monster clam held the gull's beak in a viselike grip. The clam was too heavy for the bird to fly away with, and for all its frantic struggles it could not loosen the tenacious grip of the big shell fish, which measured probably 3 inches across the flat of its shells.

With his hunting knife the settler succeeded in prying open the shells. By this time the gull was all in and could only stagger like a drunken sailor toward the water. It finally flew away, and very soon it returned in the van of a cloud of gulls come to inspect whatever it was that had trapped one of their tribe.—Vancouver (B. C.) Sun.

DO WORKING GIRLS DREAM ONLY OF LOVE?

By LAURA JEAN LIBBEY

(Copyright, 1913, by Laura Jean Libbey.)

LAURA JEAN LIBBEY.

A LETTER has come to me, this time from a man, which aroused my most profound interest. It consisted of less than half a dozen lines, asking in part the following questions: "With you please tell me if it is the truth that all girls who are employed, are mad to get married, so to speak? Is it or is it not the absorbing thought of such of these girls to get a man, that they may change their present surroundings for a home of their own? Does age wither this determination?"

He should take upon himself or herself the responsibility of making answer to such a query according to his or her own imagination or theory.

There is but one source of true information, that is to go to the fountain head for it. In other words, learn the truth from the lips of the girls themselves.

It is a knowledge that is well worth the trouble of gathering. So interested I was in the outcome of the matter that I made the investigation personally in both department stores and factory. It entailed several weeks of time, but I was well repaid by the wealth of information received. In each instance a few words of casual conversation, a smile, and a little adroit questioning brought forth candid replies. Only a few responses out of hundreds can be given, for lack of space. Not ten out of 200 confessed that love was the ruling passion of their lives. Their ambitions as each in turn described them aroused my admiration for the girls. No one was a dreamer. The life hope—ambition—of one was to rise steadily in her position, to which she was devoted, that she might surround the last years of an invalid mother's life with not mere comforts but luxuries. Another's object in life was to rear and to educate two little orphaned children—niece and nephew—who would have been thrown upon the world and have been supported but for her. Another girl, who seemed made only for love and marriage, spent every available moment in perfecting an attachment to be used on automobiles. So absorbed were her thoughts in her occupation that she gave not the slightest heed to love and lovers. The day dream of another girl, equally as fair, was to save up money to buy an encyclopedia, and to speak to him or wait until he speaks to her, to disseminate knowledge. Another shook her golden curls when I suggested that she was dreaming of love and a future husband. "No!" she answered, "the ambition of my heart is to study to be an architect, to plan, say, and build a little home, be it ever so humble, for my little brothers and sisters and my parents."

Thus the gamut run of questions and answers. All the girls were healthy minded. There was scarcely half a dozen among them who might be termed lovesick dreamers. They were all delightfully feminine, appreciating love in its place. But they did not make it the alpha and omega of their existence. Of all the girls in the world the working girls are the most sensible when it comes to love and marriage.

HE WON'T SPEAK.

"Dear Miss Libbey: Not long ago I was introduced to a young man at the close of church. He asked to take me home that evening and I refused him. Since then I have seen him on the street and I always speak to him. He looks at me but never speaks. What shall I do. Shall I speak to him or wait until he speaks to me first? When one of your girl friends gets married what should you say to her in the way of congratulations? Is it wrong for a girl and boy to go together only a few times? If this is wrong please give a few reasons."

You better wait until the fellow shows some signs of recognition. There is no use trying to force him into speaking to you. Wish the girl much happiness. The wish that girls to kiss her promiscuously gains nothing at all and usually loses her self-respect and the respect of those whose good opinion she would like to retain.

GAVE THEM RINGS.

"Dear Miss Libbey: We are two young ladies of 28 and 29, very good looking. We have been keeping company with two young men for over three years. They've given us a diamond ring for Christmas. They seem to think a lot of us, but never touch on the point of matrimony. In fact, they avoid it. Do you think it best to continue their company or look for another?"

You had no right to accept the diamond rings from the men unless you were engaged to them. If they have no intention of marrying you the thing for you to do is to return the rings at once and not waste any more time with them. The rings were probably intended for engagement rings, I think.

LOST HER RING.

"Dear Miss Libbey: About two weeks ago a friend of mine lost her ring and do you think it would be proper for him to get me another one, as he was wearing it?"

If he lost the ring he certainly should replace it.

THE GIRL HE WOULD LIKE.

"Dear Miss Libbey: Sometimes I read your columns and find a great variety of love affairs printed, so that I think my statement is not improper. I wanted to tell you what kind of a girl I would like. I am a young man—German-American—living in a small town near Chicago, where I got a permanent position as an draftsman. I am medium-sized, of perfect health, no drink habit, no smoke. As I am a stranger here and have not much time to spend on the street (dances are seldom), I try this way to become acquainted with a young, nice looking girl who would be able to keep house on an economical basis. Intelligent, sympathetic work-

ing girl belonging to some tolerant church preferred. It don't matter where grown up, in city or country."

I am sorry, but I cannot assume the responsibility of finding matrimonial partners for my readers. Wait a little while longer and the right girl will come along.

SHE SAYS SHE IS "CUTE."

"Dear Miss Libbey: I am 17 and consider rather good looking and cute, but one thing bothers me greatly. The girls and boys that I used to associate with treat me very cool. That is, at the dances the boys don't dance with me and the girls don't invite me to their parties, although they all speak to me and are very friendly when I am among them. It cannot be my reputation, as it is good, and I don't associate with any one, either boy or girl, that has the least defect in their reputation. I earnestly seek your advice on this matter, as it has always been the height of my ambition to be popular, although it seems a selfish one, and the only possible thing that can make me entirely happy."

There is nothing wrong, I am afraid, if they would not all tell you that way. I think you better try to find out just what the trouble is and try to remedy it. I don't believe if I were you I would make popularity the height of my ambition. To be popular is a mighty nice thing, but there are other things in life worth while. If you cultivate the worth while things you are bound to be well thought of, and that is much better than to be just popular.

Operator Need Not Work Over-time Because of Secretary.

WASHINGTON, April 1.—Elevator operators in the state department no longer will be compelled to remain on duty over time while the secretary of state is in the building. Secretary Bryan believes that when an elevator conductor has worked eight hours it is about time for him to quit for the day. Incidentally he is of the opinion that walking down a double flight of stairs will work no great hardship on any governmental official.

OVER HALF OF ALL SICKNESS CAUSED BY CLOGGED UP WEAKENED KIDNEYS

Hundreds Are Suffering With Kidney Trouble and Don't Know It; Backache, Bladder Disorder and Rheumatism Are the Result.

It is a well recognized fact among physicians today that the greater part of all sickness can be avoided by keeping the kidneys working properly. This is even more important than for the bowels to move regularly, because the kidneys and bladder are our filters and sewers of the body. If you suffer with pains in the back or sides, bladder or urinary disorders, lumbago, rheumatism, dizziness, purty swellings under the eyes or in the feet and ankles, nervousness, tired and worn-out feeling, or any one of the many other symptoms of kidney trouble, don't neglect yourself another day and run the risk of serious complications. Secure an original package of Croxone, which costs but a trifle, take three doses a day for a few days and you will be surprised how entirely different you will feel. Croxone cures the very worst cases because it removes the cause of such troubles. It soaks right in and cleans out all the kidneys and makes them filter out all the poisonous waste matter and uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the bladder and quickly effects a cure. It is the most wonderful remedy ever made for the purpose. You will find a church bulletin from any thing you have ever used. There is nothing else on earth to compare with it. It matters not how old you are or how long you have suffered, the very principle of Croxone is such that it is practically impossible to take it into the human system without results. You can secure an original package of Croxone from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give the desired results the very first time you use it.

ASSOCIATION TO GIVE BENEFIT

Talented Singers to be Attraction at Y. M. C. A. Affair.

The Young Women's Christian Association on Thursday evening, April 2, give the second entertainment in the star lecture course for the benefit of the members of the association. This entertainment will be a musical given by Eugene Blanchard, assisted by the quartette of the First Congregational choir. The gymnasium class of the Y. M. C. A. is having a winter term with a closing concert on April 10 and 11. The class meets in the high school gymnasium and is directed by Miss Adele Place of the university. Miss Place gives special corrective work to those members of the class who need it.

The hiking club of the Y. M. C. A. had a walk in Muir woods Sunday, the 28th. This club meets every Friday evening for an evening walk, taking their walks in the Muir woods. Next a club will meet for supper at the Piedmont bungalow at 8.20 p. m. After supper and a brief business meeting there will be a short walk.

Y. M. C. A. ISSUES CONVENTION CALL

Oakland Will Have Large Representation at Gathering in Fresno.

The convention call for the thirty-second annual state convention of the California Young Men's Christian Association to be held in Fresno April 10 to the 15th, sent out by the executive committee, has been received by the local association secretary John Fichter and a big representation from the Oakland association will be present at the meeting.

The convention will open on Thursday, April 10, at 2.30 o'clock with the convention address by Dr. Edward A. Steiner on the convention theme, "Utilization of Power." In addition to Dr. Steiner, the speakers will include, Charles R. Towson, secretary of the industrial and immigration department of the international committee; Robert Watson of Los Angeles; Bishop Edwin Holt Hughes of San Francisco; Dean Thomas F. Hunt of the University of California; Dr. M. A. Honline, international Bible study secretary; Judge Benjamin F. Bledsoe and a number of California association leaders.

The Oakland association expects to send fifty delegates as its share toward making up the special train which the bay cities will send to the convention. A conference of secretaries and committee men will be held on Thursday morning, the first session of the convention on Thursday afternoon, and the business men's banquet on Thursday evening. Mayor Ralph of San Francisco will be a speaker at the latter event.

CELEBRITIES AID IN MAKING NEW COMEDY

LOS ANGELES, April 1.—A new musical extravaganza, scheduled to invade New York in the near future, received its premiers here last night after weeks of preparation. It was "The Tik Tok Man" and many persons of prominence in the theatrical and musical world were concerned in its production. They included Oliver Morosco, the producer; L. Frank Baum, "The Wizard of Oz" fame, who wrote the book of "The Tik Tok Man"; Louis F. Gottschalk, who composed the music; Francis Stammers, who came from New York to stage it; and Eugene Cowles, the basso.

COWLES' DAUGHTER TO WED OFFICER

Admiral of Pacific Fleet Will Proceed to Mexican Waters.

SAN FRANCISCO, April 1.—Accompanied by his wife and daughter, Miss Edith Cowles, Rear Admiral C. W. Cowles designated to relieve Rear Admiral Southern as commander of the Pacific fleet, arrived from Honolulu on the steamer Manahua yesterday.

The arrival of Miss Cowles proved an interesting event for the army and navy set, who recently heard it rumored that the admiral's daughter was engaged to Lieutenant L. Salm, U. S. N.

"It is more than a rumor," said Admiral Cowles yesterday. "The engagement was announced at Honolulu two months ago. The date of the wedding has not been decided upon yet, but probably will take place in a few months."

The new admiral of the Pacific fleet will go to San Diego, whence he will take the cruiser California to Guaymas.

Admiral Cowles is known as one of the most genial officers in the navy and it is expected that during the two years of his command matters will move along without any friction.

"Admiral C. T. B. Moore relieved me at Honolulu," said the admiral. "I shall take command of the fleet at Guaymas and shall retain the California as my flagship. For the greater part I shall retain the present admiral's staff as my own. They are the right kind of men and we will, I believe, get along nicely together."

"The fact that I shall be in command of the fleet until my retirement in July of 1915 is gratifying to me, especially owing to the fact that the fleet will probably be about San Francisco most of the time during the world's fair."

"I am especially interested in the situation in Mexico, but know nothing beyond the matters printed in the press. I have no knowledge of the length of time the fleet will remain in Mexican waters."

EIGHTY-MILLION WORKING BALANCE

Treasury Report is Issued; Shows Large Surplus on Hand.

WASHINGTON, April 1.—The condition of the United States Treasury at the beginning of business yesterday was: Working balance, \$80,137,895. In banks and Philippine Treasury, \$42,746,088. Total of general fund, \$140,015,801. Receipts Saturday, \$3,169,401. Disbursements, \$2,705,844. The surplus this fiscal year is \$13,189,161, as against deficit of \$12,982,642 last year.

The figures for receipts, disbursements, etc., exclude Panama and public debt transactions.

More "Direct Evidence"

The blood-purifying, strength-giving properties of Hood's Sarsaparilla are brought into strong light by the following letter, which describes the cure of Mrs. Bearer of Portsmouth, N. H. This is another of the thousands in our series of "Direct Evidence."

"45 Coffin Court, Portsmouth, N. H., May 12, 1912. "C. I. Hood Co., Lowell, Mass. "The beginning of my trouble was a sore or abscess that gathered in the heel without a surgical operation. I was much run down with impure blood, and dreaded to think of an operation. "I remembered that four years before I had taken Hood's Sarsaparilla with benefit, and I decided to take it again for my very poor health. The medicine brightened me up, but my family physician advised me to discontinue it, saying that it would not agree with other troubles with which I was afflicted, so I stopped taking it for some months, when, as the doctor had failed to help me further, I decided to take Hood's Sarsaparilla again. "After I had used four bottles of Hood's Sarsaparilla the abscess had a more healthy appearance and the discharge was less. When I had taken seven bottles the sore had entirely disappeared, leaving only a slight scar. When I told the doctor Hood's Sarsaparilla had cured me he was dumbfounded, and said 'Hood's Sarsaparilla certainly has done wonders for you.' I think my blood was cured of humor. I had better appetite and was in better health in every way. My husband cannot say too much in praise of Hood's Sarsaparilla." Mrs. Chas. Bearer

GIRL TO EXPIATE FAULT IN LUXURY

Governess, Auto and Ample Funds for Edna Louise Adams

LOS ANGELES, April 1.—Edna Louise Adams, former society girl of Chicago, who was arrested in this city several months ago on a charge of passing worthless checks and later entered a plea of guilty, will expiate her fault in a luxuriously appointed bungalow near Los Angeles with a governess, an automobile and ample funds at her command. Miss Adams began her period of probation today.

In granting probation to the young woman Superior Judge McCormick stipulated that she must abide by the judgment of her governess in her recreation, indulgence, eating, drinking, smoking and intoxicating liquors, and that she must act in financial and business transactions in accordance with the opinion of her governess.

SUFFRAGETTE LEADER IS INDICTED

Mrs. Pankhurst Accused of Incitement to Commit Arson.

Campaign Continued Today on Behalf of Miss Zelle Emerson.

LONDON, April 1.—Following a suggestion made by Baron von Horst of San Francisco and a number of other Americans, English suffragettes are collecting various instruments used in the forcible feeding of women prisoners. These include screws and pliers used to force the jaws apart, feeding tubes and other utensils.

A true bill against Mrs. Emmeline Pankhurst was returned today by the grand jury at the Old Bailey Sessions on the charge of incitement to commit damage. Mrs. Pankhurst was arrested on February 21 in connection with the destruction of the country residence of Chancellor Lloyd George.

PLEAD FOR AMERICAN.
The campaign was continued today with more energy than ever on behalf of Miss Zelle Emerson of Detroit, the militant suffragette who is undergoing two months' imprisonment in Holloway jail for window breaking.

A cablegram sent today to Theodore Roosevelt by Beatrice Harraden, the author, says: "I cannot believe that American men, a number of whom expressed to me during my recent visit to America, their horror at the system of forcible feeding, will remain indifferent when they learn that their fellow countrywoman, Miss Zelle Emerson is undergoing this ordeal in Holloway jail and is in a precarious condition."

APPEALS TO WILSON.
To President Wilson of the United States Miss Harraden sent the following cablegram: "Having just come back from America, where I learned from all sources that there is a strong feeling against the bar-

barity of forcible feeding, I venture with confidence to beg you to intervene in behalf of Miss Emerson, who is being forcibly fed in Holloway jail and who is in a precarious condition."

CREATE SCENE.
Suffragettes caused a scene yesterday at the resumption of the proceedings of the parliamentary committee inquiring into the wireless contracts of the British government when Chancellor Lloyd George took the stand to undergo further examination.

The Chancellor used the word "principle" and a male suffragist arose and shouted: "It objects to that man using the word 'principle'. He is a traitor. He has betrayed the women."

The interrupter was ejected, but another interrupted when Lloyd George re-

marked that he was not a speculator and never had bought to sell again. A suffragette cried out: "You sold the women, all right." She also was thrown out.

The ordeal of the cabinet ministers closed with a brief statement from Postmaster General Herbert Samuel that he had had no dealings in any Marconi concern. He thought it would be highly improper for any postmaster general to have an investment in any telegraph or telephone company or similar concern.

The box reserved for Mrs. Emerson and Mrs. Pankhurst at yesterday's meeting was shared by Beatrice Harraden, the writer, Baroness von Hengstler von Hengstler, wife of the former Austro-Hungarian Ambassador to the United States, and a number of other prominent suffragettes.

During his lifetime, McCreery was a well known figure on the streets of this city. He made his fortune entirely in real estate and principally through lucky investments in the days when most of the city was a heap.

AGED CAPITALIST ANSWERS SUMMONS

Andrew McCreery, Millionaire Clubman, Dies in San Francisco.

SAN FRANCISCO, April 1.—Andrew McCreery, the aged multi-millionaire, capitalist, clubman and pioneer resident of San Francisco, died peacefully at the Adler Sanatorium at 1 o'clock this morning. For many months McCreery had been a patient at the institution, but death was directly due to old age. The pioneer passed away in his sleep and was found dead by his nurse, who had noted the absence of his usual heavy breathing.

McCreery came to California in 1839, was a member of the Pioneers of the Pacific Union and Bohemian Clubs. He was the owner of the Central Park property at Eighth and Market streets and other large places of real estate here and in other parts of California. He is survived by his widow, who is now at Lake Como, Italy, and three sons, Richard, Walter and Lawrence. McCreery, Walter McCreery was recently declared incompetent by the Superior Court and is living quietly at Burlingame.

STAFF NAMED FOR SUMMER SESSION

Noted Educators Will be Assembled at University of California.

Several Eastern Institutions to Contribute Best of Teachers.

UNIVERSITY OF CALIFORNIA, April 1.—Dean C. H. Fisher has assembled for this year's summer session, which lasts from June 22 to August 2, a notable staff of teachers and an unusually broad program of courses. Announcement of the session was made today from his office. The work will be organized in three departments.

Several eastern universities have furnished members of the summer session faculty, while England sends at least one. The last is I. B. Houghton Holburn, lecturer for Oxford and Cambridge university extension systems. Professor Isabel Sawyer, head of the University of Illinois department of household science, is numbered in the session faculty as well as Professor Edward Elliott, who heads the department of politics at Princeton University.

NOTED EDUCATORS COMING.
The important physical education department will have among its heads such important men as Clark W. Hetherington, ward Burton de Groot, secretary of Chicago Playground League and a noted athletic coach of the Middle West. Professor Robert Irving Fulton, dean of the Ohio Wesleyan college of oratory, and Professor Barry Gilmore of the University of Iowa college of law are others who are coming west.

The department of mathematics will be made especially strong by the presence of Professor George Abram Miller, head of the department in the University of Illinois. Professor Frederick Logan Paxson, professor of American history at the University of Wisconsin, and author of several noted works, will head the history department. A group of three other important men includes Professor Eugene Paul Schoch of the department of physical chemistry of the University of Texas; Charles A. Smith, Edgar Allen Poe, professor of English in the University of Virginia, and Professor Franklin B. Snyder of the department of English in Northwestern University.

BACTERIOLOGIST SIGNED.
One addition to the faculty of the public health department will make the offering therein especially strong. This is Dr. Joseph E. Ravenel, professor of bacteriology at the University of Wisconsin and director of the Wisconsin State Hygienic Library. Dr. Ravenel is an important figure in the American world of bacteriological research. He will give a normal course in methods of teaching hygiene.

The University of Minnesota sends Professor William Reynolds Vance, head of its law school, former Lines professor of law at Yale. From the University of Nebraska will come Professor Hutton Webster, professor of social anthropology, Glenn Woods, conductor of the African Classical department.

Another very important figure in the session will be Lightner Witmer, professor psychology and director of the psychological laboratory and clinic at the University of Pennsylvania. He is editor of the Psychological Clinic, an important publication in this country.

HAIL OF SHOTS FALL DURING BATTLE

Suey Sing Man Murdered and Bystander Wounded in Running Fight.

Two Desperate Fights Result in Capture of One Chinese Slayer.

SAN FRANCISCO, April 1.—In an endeavor to even up the score of killings in the bloody tong war which has been raging in Oakland, San Francisco and other coast cities for a month past, Lee Quong Sing, aged 70, of 710 Sacramento street, a member of the Suey Sing tong, was murdered in front of the Commercial restaurant, 612 Kearny street, at 5:40 this morning. At the same time Frank Ghiatto, also known as Frank Chiofatti, of 1110 Kearny street, an employee of the Chicago Window Cleaning Company, was seriously wounded by a stray bullet.

When the smoke of battle had cleared and citizens began to feel snuff enough to emerge from their dwellings and walk on the streets the toll of events showed one Suey Sing man dead, one innocent bystander badly wounded and one Bing Kong high-binder and "hatchet man," Tee Lick, locked up in the city prison charged with murder.

Events followed each other rapidly. Sergeant of Police Herlihy was eating his breakfast in the Commercial restaurant at 5:40 a. m. when he was startled by the firing of a shot in front of the place. Lee Quong Sing, who was employed by the Hawley Rag Company, is in the habit of eating in the place every morning and it is thought that the Bing Kong men laid for him.

Two of them were in hiding this morning and jumped at him as he was about to open the door of the restaurant. Herlihy jumped from his seat as the first bullet was fired, drew his revolver, and ran to the entrance. As he did so Lee fell prostrate in the doorway and the officer was forced to creep over his prostrate body, into which two Chinese were pumping bullets.

CHASE IS EXCITING.
Yee Lick was about 15 feet off and at sight of the uniformed sergeant dashed down Commercial street. Herlihy opened fire on him as did Patrolman Emmet Moore, who came from the direction of Clay street. The Chinese returned shot for shot. One of the bullets crashed through the plate glass window of the Plaza department store at the northwest corner of Commercial and Kearny streets.

The fugitive sped westward to Grant avenue and thence in a northerly direction, where he was finally brought to bay and handcuffed, his lethal weapon being found on him. Meantime the second highbinder had run toward Sacramento street. He was fired on by a Morse patrolman and at long range by Policeman McIntyre. One of these shots plowed its way through the plate glass window and two showcases in a loan office at 600 Kearny street, doing \$150 worth of damage.

HATCHET MAN DISAPPEARS.
The chase of the officers, which was joined by members of the Chinatown squad for the second culprit, led to Webb alley, where the hatchet man disappeared. The police surrounded a number of houses and formed a drag net in the neighborhood, but were unable to capture their man.

The hall of shots had had an unfortunate effect. Ghiatto, on his way to work, was struck in the right thigh, the bullet shattering the bone and causing an injury which will undoubtedly necessitate the amputation of the limb. Ghiatto is a young man in his teens. He was taken for treatment to the Harbor Emergency hospital. The ambulance also conveyed Lee Quong Sing, who was still breathing, to the hospital, but he was dead when Dr. Best examined him. Lee Quong Sing was identified at the

Acceptances for Commercial Club Banquet Come in Rapidly.

Boosters From All Bay Cities to be in Attendance at Hotel Love Feast.

Acceptance to invitations to the big Commercial Club dinner at the Hotel Oakland, at which 500 of the most prominent business men about the bay will voice the slogan, "Let us join hands about the harbor," are coming in rapidly and arrangements for the big affair are fast being completed.

Another day will probably see the program entirely ready. Five of the most prominent business men of Oakland and San Francisco will be on the speakers' list, these probably to be decided on by the joint committees tonight or tomorrow. Several novel "stunts" will also be features of the evening.

Means of promoting harmony between all bay cities about the bay, to develop the harbor facilities, will be the business of the evening. The entire bay region including San Jose, San Mateo, Richmond, Berkeley, San Leandro, Hayward, Alameda, Albany, San Rafael, San Mateo, Redwood City and others will be represented, as well as Oakland and San Francisco.

President Elmer Bell will probably act as toastmaster. Ways and means of attracting investors and manufacturers to the bay region, irrespective of city or town, means of promoting mutual commercial benefits, and creating a feeling of harmony before the opening of the Panama-Pacific Exposition, will be the topics of the speakers.

CONDEMNATION SUIT FOR SCHOOL SITE BEGUN

Condemnation proceedings brought by the City of Oakland against Mrs. Sarah Jane Fox Kelsey of Los Angeles to obtain nearly 15 acres of land adjoining the Lockwood school on East Fourteenth street between Sixty-sixth and Sixty-eighth avenues, are being heard in the Superior Court by Judge Wells. The property was appraised some time ago at \$25,000, but Mrs. Kelsey refused to accept that offer and condemnation suit was filed. It is the intention of the city authorities to use part of the acquired land in building the new Lockwood school and the remainder for extended playgrounds.

EVANGELIST DIES.
SEATTLE, April 1.—Rev. Isom P. Wooten, pastor of the Friends Church here and formerly well known throughout the United States as an evangelist and organizer of the Friends, died yesterday, aged 77 years. He had held pastorates in Chicago, Richmond and Boston.

Wooten was the son of Lee Suey Hong, who admitted that his father was a member of the Suey Sing tong and that nothing save the highbinder trouble could be responsible for the killing. The dead man is survived by a wife, four sons and two daughters.

Leader's Counsel Obtains Habeas Corpus and Certiorari Writs.

Strikers Declare Work Will Not Resume Until Haywood is Freed.

PATERSON, N. J., April 1.—To the triple demands of the silk mill workers on strike here—more money, shorter hours and less labor—there was added today a fourth, the release from jail of William D. Haywood, the Industrial Workers of the World leader, sentenced yesterday to serve six months for assaultive conduct. There will be no resumption of work, the leaders declare, until Haywood is freed.

A second charge against Haywood—that of causing unlawful assemblage—accuses him of a felony, punishable by seven years' imprisonment and fine. This charge probably will be placed before the grand jury within a few days. Haywood's attorneys have obtained a writ of habeas corpus under which, if it is granted, Haywood will be released from jail while the courts review the evidence which resulted in his conviction of disorderly conduct.

Elizabeth Gurley Flynn and Ewald Koenigsmeyer have taken over the leadership of the 15,000 strikers since Haywood's conviction. Supreme Court Justice McInturn granted today two writs to Haywood's counsel. One, a writ of habeas corpus, called for the production of Haywood before him Saturday morning; the other, a writ of certiorari, is returnable rather Tuesday and calls on the city authorities to show why Haywood's conviction should not be set aside.

On the habeas corpus writ Justice McInturn fixed Haywood's bail at \$500. A bond of \$500 in addition is demanded on the charge of causing unlawful assemblage. Haywood remained in jail while his lawyers set out to seek a bondsman.
